ROAD TO WALLOWA

Word that reaches us from railroad centers inspires a reasonable hope that it will not be long until a railroad will be built from Elgin to Wallowa county. Wallowa is a large county with tens of thousands of acres of most fertile soil, and a healthful and genial climate. The extension of the Elgin railroad into it means the establishment of hundreds of pleasant homes, school houses and churches. In 1900 the U S census report gave Wallowa county a land surface of 2,784 square miles and a population of 5,538 a small fraction over two persons to the square mile. When Wallowa county is as thickly settled as Pike county Mo., 414, to the square mile, it will have 115,541 people. These figures are given to show the possibilities of Wallowa county and to emphasize the importance of the news we are giving out that a railroad will soon unlock its vast resources. There can be no doubt but Wallowa county when it has railroad connection with the rest of the civilized world, will sustain in comfort more people than Pike county, Missouri.

COPPER AND HEALTH

The recent use of copper sulphate for the disinfection of reservoirs and the destruction of algae and noxious germs in water has led to much discussion of the old idea that copper is dangerous to health. Dr George T Moore of the Department of Agriculture maintains that a change has come over scientific opinion on this subject. Strange as it may seem, he says, there is not an authentic case of copper poisoning on record, either in this country or abroad, and he adds that toxicologists and physiologists who have sufficiently studied the subject agree that copper, in the amount used for purification of water, is harmless. On account of the many defects in the practical use of filtration plants, Doctor Moore regards purification of water supplies by copper as a preferable method, or at least as a safe auxiliary.—Youths Companion.

SACAJAWEA

Of all the books and booklets which the Centennial Exposition commemorative of Capt. Lewis and Clarks journey from the then Western frontier to the Pacific Ocean, has called forth the most interesting one that we have read, it is a little booklet written by Amy Jane Maguire, entitled "The Indian Girl who led them" (Sacajawea the Bird Woman)

The booklet of 87 pages gives a realistic picture, not only of the topography the wild unsettled west as it looked a hundred years ago, but of the wild people and animals that roamed over it and the labor and difficulties in finding a way through it. The important part which Sacajawea acted in this long march is told in a most pleasing manner.

The simple history of this Indian woman, as told by the author, gives the clearest picture of real Indian homelife that it has been the fortune the writer hereof to have ever read.

Sober reflections should arise in the minds of masculine financiers when reading that the board of lady managers of the Louisiana Purchase Exposition, which discharged its duties to the admiration of all beholders, administered its trust so wisely that nearly thirty thousand dollars of the one hundred thousand appropriated by Congress remains unexpended. Moreover, all the accounts are correct. This is in such happy contrast to the deplorable muddles of error and insolvency common in such cases that seasoned masters of finance must surely take the hint and let the women manage the next world's fair, and show the men how to do it.

At \$2000 a day and expenses the Russian peace envoys will doubtless find their sojourn at the pleasant New Hampshire town of Portsmouth agreeable and difficult to conclude. It will be just as well not to expect too early an agreement on terms of peace.

Notice To Water Consumers

All persons knowing themselves to be in arrears for city water are hereby notified to call at the office of the city Recorder and settle at once. In order that there may be no miss understanding we cite the customer to the following section of the city ordinance. This ordinance will be in force.

Section 38—The water rates shall be payable in advance at the office of the water superintendent on the first day of each month (except for meters which are payable on the first day of the succeeding month), and if not paid within the first ten days the water will be shut off the premises, as provided in Sections 26 and 27.

Later ordinance provides that water rates shall be payable to City Recorder instead of Water Superintendent.

Clean Sweep Sale Commences Friday July 7, Ends Mon. July 31

The greatest clearing sale of the year. Because of the unusual amount of merchandise to clear, this sale will largely exceed all our previous July Clearing Sales in volume, variety of merchandise, and in price reductions. All broken lines, odd lots, and those assortments of regular merchandise which are larger than we wish, have been given low price marks that will force quick selling. The sale sheets will show enormous losses, but we count losses as inevitable during these clearing sales—part of the business.

Every Article in the House Reduced.

EXCEPT E. & W. COLLARS, W. L. DOUGLASS SHOES, SPOOL COTTON AND BUTTERICK PATTERNS WHICH ARE CONTRACT GOODS.
