SPEAKS ON WAY

Wilkesbarre August 10—Fully two hundred thousand visitors are in town to see President Roosevelt and witness the big parade of the Catholic Total Abstinence Union. All mines, factories and shops along the valley are idle. Never has the town had such distinguished visitors, who include, besides President Roosevelt, Cardinal Gibbons, John Mitchell, Mayor Weaver of Philadelphia, and congressmen senators and judges. The city is in gala attire. The parade began at noon with ten thousand temperance men in line. The President and party arrived at three o'clock in the afternoon. Mitchell acted as the President's introductory spokesman.

temperance society. In our country the happiness of all the rest of our people depends most of all upon the welfare of the wage-worker and the welfare of the farmer. If we can secure the welfare of these two classes we can be reasonably certain that the community as a whole will prosper. And we must never forget that the chief factor in securing the welfare of the wage-worker and of farmer, as of everybody else, must be the man himself.

"I strongly believe in trades unions wisely and justly handled, in which the rightful purpose to benefit those connected with them is not accompanied by a desire to do injustice or wrong to others. I believe in the duty of capitalist and wageworker to try to seek one another out, to understand each the other's point of view, and to endeavor to show broad and kindly human sympathy one with the other.

"I believe in the work of these great temperance organizations, of all kindred movements like the Young Men's and Young Women's Christian Associations, in short every movement which strives to help a man by teaching him to help himself. But most of all I believe in the efficacy of the man himself trying continually to increase his own self respect by the way in which he does his duty to himself and to his neighbor."

JAPANESE ENVOYS SUBMIT TERMS OF PEACE TO RUSSIA IN WRITING THIS MORNING

Russia to Study Question and will Reply when Conference Adjourns

REGULATES OTHER THINGS

(Scripps News Association)

Portsmouth Aug 10—The Russian and Japanese envoys assembled this morning for the second day session. Formal exchange of credentials was made. In making presentation Mr Komura again expressed regret at the misunderstanding of yesterday's meeting, whereby he neglected to bring his papers and he was again most cordially given assurances that no inconvenience had resulted, by Mr Witte.

Arrangements for the privacy of the negotiations were completed. There will be no cards of admission to the grounds during the negotiations.

When the conference adjourned at 12:45 the envoys went to luncheon in the naval store building. The next meeting will be at 3 o'clock this afternoon. It is expected that Witte will be in a position to reply to the terms within 24 hours upon the main issue of the acceptance of the basis negoti-

ations. Witte is expected to refuse to accept the conditions as a whole and Japan rejoinder will probably determine the fate of the negotiations.

Portsmouth, Aug 10.—The conditions upon which Japan wishes to make peace was presented to the Russians in writing this morning. They decided that the Russians shall study the question and will as soon as possible give their answer in writing. Until then the peace meetings of the conference are adjourned.

The question of the powers of the envoys was also regulated, so very little difficulty is expected on that subject. Hereafter, official announcements will be made after the morning meetings.

Portsmouth, Aug 10.—Eijiro Takasugi, professor of English in the Tokio university is of the opinion that the conference will end in a peace treaty. He said that he understood the terms include the evacuation of Manchuria, the cession of the island of Saghalien, an indemnity of one billion dollars, the possession of Vladivostok. The indemnity might be sealed.

Portsmouth, Aug. 10.—The Japanese peace terms are said to have fairly

staggered the Russians. Among the demands, indemnity alone being susceptible to scaling, are the secession of a portion of Amur province in Siberia, secession of Sakhalin, secession of Dalny, and relinquishment of all Russian rights in Lia Yang peninsula, obligating Russia not to interfere with Japanese fortifications at Port Arthur, secession of the eastern China railroad from Harbin to Port Arthur, recognition of predominance of Japanese influence in Korea, evacuation of Manchuria, obligating Russia not to interfere with the open door policy in Manchuria, turning over interned warships at Shanghai, San Francisco and Manila, and the payment of a war indemnity of three billion dollars.

St Petersburg Aug 10—The Russian government officials are now taking a more optimistic view of the outcome of the peace negotiations. It is reported that envoy Witte has telegraphed the czar that he already knows the turn to be demanded by the Japanese and they are acceptable with only a very few amendments which he believes the Japanese will agree according to the changes he will recommend.
