Every producer in this county from this time on should make a special effort to see that a sample of his very best productions should reach the Lewis and Clark fair. Arrangements we think are already made whereby produce or anything can be left with the proper commercial organizations or committees at Elgin, Summerville, Cove, Union, Island City, North Powder or La Grande and forwarded. With what is already there by a combined effort we can put up an exhibit that will bring results. These eastern people who are here with a view of obtaining information did not travel two thousand miles to take in the trail. Their object is to study and see what the resources of the west really are. Oregonians often wonder why the states of California and Washington are growing more rapidly in population than Oregon. There are several reasons why this is so but those who have spent several days at the fair and visited the state buildings of these two states were immediately impressed with the fact that they are pushers and are there with the products of their state too.

**A GREAT AND GOOD MAN**

In the death of Archbishop Chapelle, of yellow fever at New Orleans on last Wednesday, the Catholic Church, which he served with such remarkable fidelity and ability that he, in space of twenty years, gained world wide renown and an Archbishop's miter, has sustained a very great loss.

The United States, which was his country, feels that on account

**MERCURY WORSE THAN THE DISEASE**

The effects of Mercury and Potash are worse than the effects of Contagious Blood Poison, for which these minerals are generally used. They cannot cure the disease, and in addition set up a poison of their own, producing dyspepsia by drying up the gastric juices, salivation, sores, mercurial rheumatism, and often necrosis of the bones.

Bowling Green, Ky., Mitchell House. Gentlemen:—For over four years I suffered greatly from a severe case of Contagious Blood Poison. I went to Hot Springs, staying there four months at a big expense. I then consulted physicians, who prescribed Mercury. Nothing did me any good, in fact the treatment proved more harmful than beneficial. Thus I continued to suffer for four years. I mentioned my case to a friend, who told me that S. S. S. had certainly cured him. I at once commenced its use, and in six months could find no trace of the disease whatever. This was about two years ago, and there has been no signs of return. D. M. SANDERS.

S. S. S., a remedy made from roots, herbs and barks, is the only known antidote for Contagious Blood Poison. It thoroughly and permanently eradicates the poison from the blood so that no sign is ever seen of the disease in future. S. S. S. builds up instead of tearing down the system, as do Mercury and Potash, and when it has cured the disease every part of the body has been toned up by its purifying and tonic effects. S. S. S. also removes any effects of the mineral treatment from the blood. We offer a reward of \$1,000.00 for proof that S. S. S. contains a particle of Mercury, Potash or any other mineral. Home treatment book and any medical advice will be given without charge.

of the valuable service which he rendered it during his arduous life of 53 years, spent in work for the instruction and uplifting of humanity, that one of its best and greatest citizens has passed away. It was he, that by reason of his large heart, that throbbled ever for humanity, and stupendous brain that ceaselessly planned to lessen the hardships of the life of the poor and lowly, solved the triar problem in the Puillipines, and lifted an enormous burden from the home life of the natives, that weighed them down for centuries, rendering them homeless wayfarers in their native islands.
