Convict Escapes From the Boise Penitentiary

Was at Work on a Ditch when a Chance
Came for Him to Run

WAS CONSIDERED A DANGEROUS MAN

Boise Aug 17—Joseph Lawrence, who had been a prisoner at the state penitentiary since July 11 of this year, has been at liberty since about 10:30 o'clock yesterday morning, with a posse of about 20 men and a couple of trailing hounds in pursuit, but up to a late hour last night he had not been overtaken.

Lawrence was one of a convict crew engaged on some ditch work on the grounds yesterday morning, under the supervision of Guard Perkins. About 10:30 o'clock Guard Perkins turned and left the men for a moment or two to go a distance of perhaps 20 feet to get a drink of water. This apparently was the chance that Lawrence had

been looking for. He jumped into the ditch, ran a short distance and vaulted over a wall into another and deeper ditch, ran on his hands and knees for a distance of 100 feet or more in this ditch which passes through the prison orchard, and within two minutes of the time when the guard turned his back upon him he was out of sight. Lawrence is about 25 years of age, and from the scars upon his face and body it is believed that his past has been a rather checkered one. At the penitentiary he was not considered a good prisoner. He was sent up from Washington county for a term of two years for burglary.

A Grim Tragedy

is daily enacted, in thousands of homes as Death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oakland, Ind., writes "My wife had the consumption and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1 by Newlin Drug Co., druggist. Trial bottle free.

Methodist Conference

Baker City Aug 17—Ministers from all over Eastern Oregon and Idaho are pouring into Baker City to attend the Idaho annual conference of the Methodist Episcopal Church, which convenes here this morning at nine o'clock. This conference includes all the state of Idaho except panhandle and Oregon, east of the Blue Mountains. In this great territory embraced in the conference there are more than fifty ministers in the Methodist denomination, and most of these are expected to be present with their wives. The visitors are to be entertained at the different homes in this city, while the conference lasts, which will be until Monday morning when the appointments will be read by the Bishop.

Lives Beyond Income

New York August 17—In the last three months John D. Rockefeller has been giving away money faster than Standard Oil brought it in to him.

Standard Oil today declared a quarterly dividend of \$6 a share, amounting to \$6,000,000. Of this Rockefeller will get \$2,400,000 as his share next month. Rockefeller's disbursements for the quarter that brought him in \$2,400,000 have been about \$11,000,000 or \$9,000,000 more than his income.

Japan Gardening

The Japanese are good gardeners, that is they manage to get large returns from a small area. They plant cucumbers in rows as we plant peas, and train them up on stout sticks, instead of letting them spread over a large ground surface as we do, thus saving much ground space. It is claimed that by this means they grow about four times as many cucumbers on a given space of ground surface, as the American gardeners can.

You don't
have to
hire a Cab

The La Salle Street Station in Chicago, which is used by the trains of the Rock Island System, is located in the very heart of the city, less than a block from the Board of Trade; less than two blocks from the Post Office; within easy walking distance of the principal hotels, theatres and stores.

You don't have to hire a cab to reach them. The "union loop" is right in front of the station. Pay 5 cents, get aboard the elevated, and you are whisked to any part of town you wish to reach.

Let me give you other reasons why you should use the Rock Island System. There are lots of them.
