A Grim Tragedy

Is daily enacted, in thousands of homes as Death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oakland, Ind., writes "My wife had the consumption and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1 by Newlin Drug Co., druggist. Trial bottle free.

Croup

Is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes; and is one of the most dangerous diseases of children. It almost always comes on in the night (Give frequent small doses of Bellard's Horehound Syrup and apply Ballard's Liniment externally to the throat 25c, 50c, \$1.00, Newlin Drug Co. TELL OF AN OLD TRAGEDY

Aberdeen, Wash., Aug. 23.—A human skeleton, the bones of an animal, presumably a bear, and the remains of an old fashioned rifle, found in the woods four miles north of this city by Robert Fordney, a woodsman, tells the tale of the evident tragedy which ended in the death of the participants in what was undoubtedly a desperate encounter between a man and a beast. About one half of the bones of the remains of the man are missing, but a few shreds of clothing prove that it was a human being. Aside from the bones and the gun, a knife, rusted and with the wooden handle rotted, together with a tin cup, a rifle and an axe were the only articles found. Fordney buried the remains, bringing in a log bone, several ribs, the gun and the axe to this city.

General Summary

Light showers occurred during the fore part of the week in the lower portion of the Willamette valley and in the northern coast counties. Elsewhere throughout the state dry weather prevailed. The temperatures in western Oregon averaged about normal, while the weather east of the Cascades was slightly cooler than usual, especially at night.

The rain somewhat revived vegetation, but as a whole the amounts were too small to do much good, and gardens, corn, potatoes and pastures are suffering for want of moisture.

Grain is about all cut and in the stack. Thrashing continues in all sections. The yields in the Willamette valley continue disappointing, but in the Columbia and the Grand Ronde valleys the returns are very gratifying. Hops are making seasonable progress, and where spraying was thoroughly done the lice have about disappeared. Corn is earing and filling nicely and a good crop is indicated. Stock continues to lose flesh.

Plums and some varieties of prunes are ripe and being gathered. The yield of most fruits will fall below the average, both in quantity and size. Apples and pears are small and dropping more than usual. Peaches are plentiful and of good flavor.—Oregon Section United States Crop Service.

Pace of Enterprise, one for the grave of Thomas Baldwin of Wallowa, and one for the grave of Bert Marquis of Enterprise.

J. R. SMITH,

Alaska

"Do you know," said William T. Perkins in the World's Work, "that Nome, Alaska, is 3000 miles west of Honolulu? Do you know that Alaska has almost two and a half times as much coast line as the rest of the United States?"

The "panhandle" of Alaska includes 1000 miles of inland sea, protected by a range of islands.

The Yukon carries as much water as the Mississippi. It rises within 30 feet of the Pacific and travels 3000 miles to Behring sea.

The mouth of the Yukon is 90 miles wide. As in the Amazon's mouth, you may ascend it on a clear day and see no shore.

From Cape Prince of Wales, American soil, you can see Asia across only 33 miles of Behring Straits.

Seven railways are in operation or being constructed. The most famous is the Skagway-Yukon, connecting-link of 140 miles.

Alaska's canned salmon output is estimated this year at \$10,000,000.
