Our young readers, who know much more about the present war between Japan and Russia. and the ability of these nations the last war of the United States with England and of the relative strength of our nation as compared with Great Britain, and think that Russia is so badly whipped, and so weskened by internal dissentions that she must of necessity accept any terms Japan may prepare will do well to review their history lesson about the war of 1812-14.

By so doing they will find that the total population of the U S in 1810 two years before the declaration of war was 4,308,483 whites and 1,377,808 negroes, mostly slaves. The literature of the times had much to say about "British Sympathizers" and "Blue Light Federalists" person: charged with aiding the English by giving them such aid and information as they could.

The war waged from June 19th., 1812 to Dec 14th., 1814. Our operations on land, either in futile attempts to invade Canada, protect the western
