got back in time to get the full benefit
of the sand storm near Elgin.

Webster Chandler, son of Rev. Perry
Chandler, a former pastor in this city,
was a passenger on the east bound
train this morning. He completed his
college course and is now on his way
to Boston where he will make his
future home. He will be remembered
by many of the young people of this
city. He was an exceptionally fine
singer.

There will doubtless be several more
cement walks built this year in the
resident portion of the city but next
year there will be many miles built.
There are many walks that will have
to be built or repaired and as La
Grande is now entering upon an era
of permanent improvement these
walks naturally meet such require-
ments.

J. Bull and company has purchased

The small boy was made happy yester-
day by the arrival of a car load of
water melons. The arrival of a load
of melons is only equaled by the arriv-
al of a circus in the city so far as the
small boy is concerned.

The attention of our readers is called
to the new ad of Bull and Company
which appears in this issue. It will
pay every reader to read this ad.

The wind storm did considerable
damage to the fruit crop, but the
grain crop will still pass the million
bushel mark.

In this issue appears the ad of
Brooks & Rohr, who have assumed the
management of the Harris Meat Mar-
ket. Messrs. Brooks and Rohr were
formerly in the employ of Beck &
Thomas, and are both experienced
market men, and are not strangers to
the people of this city.

Curtailed

Superintendent Gamble, of the Un-
ion county experimental station, came
up from Portland this morning. He
states that owing to the policy of in-
trenchment which is made necessary by
the suspended payment of the general
appropriation bill, he will retire from
the management of the farm just as
soon as he disposes of the thorough-
bred cattle. These he will take to
Portland and place on sale about the
23rd of next month. A small force of
men will be kept at the station to take
care of the grass experiments which
have been carried on for several years,
but most of the land will be, and in
fact is already leased.

Crop Summary

The past week was cooler than the
previous one in the western section,
while in the eastern section the nights
were cool with moderately warm days.
A few small showers occurred in the
northwest Sunday and Monday, but
they were insufficient to wet the
ground to any great depth, and rain is
still needed everywhere for late crops
and for pastures.

The grain harvest is drawing to a
close and thrashing is well along.
Fall wheat and barley continue to
yield well, but the berry of spring
wheat and oats shriveled during the
late hot weather and the yields are
disappointing. Pastureage is getting
short and stock is losing flesh. Corn
and hops are making satisfactory ad-
vancement. Late potatoes are at a
standstill and need rain badly.

Apples are generally smaller in size
than usual and the crop promises to
be below the average in quantity.
Prunes are beginning to ripen.—Ed-
ward A. Beals, Section director.
