LA GRANDE SCHOOL OF MUSIC

PROF. DAY, Principle. MRS. DAY, Assistant

This is one of the best musical institutions in the state, and the people of this city and valley are beginning to discover the advantages of this school. The system used is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments; No. 1 is for beginners, from 5 years or more and are taught the first three grades. Pupils come one hour every day. This is no Kindergarten system but far superior. In No. 2 the grades are from 8 to 15. Here they graduate. Pupils take one or two lessons a week at their desire. No scholars will be permitted to remain in this school who do not study.

FAINTED WHEN JURY DECIDED

Grangerville, Idaho, Sept. 15.—The jury in the case of the state of Idaho against Young, charged with the murder of Morris, at Warren, returned a verdict of acquittal at 8 o'clock Tuesday night after having been out since noon.

The verdict was not unexpected for it has been the general opinion of the residents of the vicinity that Young would be acquitted. Special interest has been aroused in the case from the fact that Young, immediately after the shooting, rode 100 miles from Warren in order to give himself into the keeping of the officers.

His attitude has always been it seems that of a man not guilty of the crime charged.

The scene when the young man was summoned to stand facing the jury to receive its decision was dramatic in its intensity, and when the words were pronounced that made him a free man he fell in a faint to the floor, and it was several minutes before he could be revived by those who were in the court room.

He expressed his gratification at the result and thanked the jury for the evident fairness that was shown all through the trial.

Cement in Klamath

Klamath Falls, Or., September 16.—After a thorough search and much experimenting, the Government experts have discovered a formation here for the manufacture of Portland cement. The exact location of this formation is kept as a close secret so far, but those connected with the Government work here say the samples have stood the test and a plant will be put in here to manufacture the cement.

Samples of the formation were sent to the Government mill at Roosevelt, Ariz., where a small briquette was made which stood the test of 205 pounds' pressure, which is above the average for this manufacturing product.

This find here will greatly reduce the cost and labor of building the tunnels and canals for Government irrigation, as it will save transportation charges on the cement, which would be enormous under present conditions.

Suit was filed by Geo L Cleaver against Mary Wistoe and Wm Wistoe to recover \$450 and interest from June 1904.

ECZEMA ITCHES AND BURNS

The return of warm weather means a return of torture to Eczeema sufferers. The blood is charged with burning acids and acrid matter which is forced to the surface through the pores and glands, forming pustules which discharge a sticky fluid, and the itching is intense.

The doctors said I had pustular Eczeema; it would break out in small white pustules, mostly on my face and hands, discharging a sticky fluid; crusts would form and drop off, leaving the skin red and inflamed. I was tormented with the itching and burning characteristic of the disease for five years, and during the time used various medicated soaps, ointments and washes, but these applications seemed to make me worse. After taking S. S. S. a short time I began to improve; the itching did not worry me so much. I continued the medicine, and soon all the ugly eruptions disappeared and my skin is now as clear as anybody's. I have not been troubled with any breaking out since. Urbana, O. H. E. KELLY.

Sometimes the disease is in the dry form, and bran-like scales form on the skin, but the cause is the same—humors in the blood. Salves, cooling washes, powders and the like can do nothing more than relieve the itching, because they do not reach the acid-laden blood, the seat of the trouble. S. S. S. cures Eczeema and all skin diseases by neutralizing the acids and carrying them off through the proper channels. When S. S. S. has done this the symptoms pass away, the blood is cooled and the disease is cured permanently. Nothing acts so promptly or surely in skin diseases as S. S. S., and it at the same time acts as a tonic to the entire system. Book on Skin Diseases and any medical advice without charge. THE SWIFT SPECIFIC CO., Atlanta, Ga.

Dog and Pony Show

When Conrad's California Dog, Pony, Monkey and Goat circus makes its appearance in La Grande, Wednesday, Sept. 20, afternoon and night, it will be found that this class of interesting entertainment has made giant strides towards improvements. The show opens with a beautiful fifty miniature circus and is followed by tableaux and acts in bewildering profusion. Ponies march and drill; a number of ponies have bells fastened to their heads and at the word of command, they play various tunes by shaking the chimes. It is the sort of entertainment that makes the child happy and at the same time instructs him in the nature of our dumb companions.

First Wheat Arrives

The Dalles, Sept. 16.—Yesterday the steamer Columbia, which will be used on the upper river hauling wheat and other wheat and other freight to the portage road, landed at Collio with three carloads of grain, the first to be brought down to the portage on account of delays caused by the wrecking of the steamer Jerome, which started down two weeks ago. Today the steamer started back.
