BEFORE WINTER COMES

Winter is the dreariest season of the year and any thing the least out of repair about a residence or business house is intensified by this season. Let every citizen of La Grande remember this and before the heavy frosts come put in a board here and there in their sidewalks that need them and brace up the fence or do some repairs as are needed. The dead leaves too should be looked after when they fall. A clean city adds more to the value of property and is noticed by new comers, perhaps more than anything else. Wobbly, sagging and broken sidewalks do not increase the value of your property either do dirty, unkempt yards. Clean up, brace up and make La Grande one of the handsomest residence cities in the state.

WAGES IN EUROPE

The Observer received yesterday Bulletin No 59 of the Bureau of Labor, a book of 385 pages that gives statistics about wages and cost of living in the United States and Europe. To illustrate its contents the following extracts are reproduced from page 230. "The average income an expenditures for various purposes, in the families of 447 watchmen, etc., employed on the Austrian state railways in 1898. Total number 447, average yearly income per family \$192.97, average yearly expenditure per family \$202.69, average cost for food for family per year \$80.5, rent \$10.06, for heating and lighting \$7.04, clothing \$16.04, education \$3.93, servants .07 taxes and insurance \$1.01

The building of a railroad down the north bank of the Columbia in Portland cannot but be a benefit to eastern Oregon even though it does not touch Oregon territory until it reaches a point almost opposite Portland. Railroad rate wars always benefit the shipper and such a war is almost inevitable. Within the next year the portage road with its line of steamers, will be in full operation, and with the three great arteries of transportation leading from the Inland Empire to the sea the producer is the one to reap the benefit.

A serious problem that will confront the citizens of this city in many cases, will be the cement walks that are laid in the prescribed grade. In some cases they are very low, the Commercial Club walk for instance, and the first melting snow or heavy rain is apt to flood them ankle deep. Some provision must be made for drainage and hot soon. Perhaps a sewer system would simplify this drainage a great deal as on almost every street there are sewerage connections in a well drained city.

AUTOMOBILE PLOW

The Corvallis Gazette announces that a company is being organized in that city to manufacture automobile plows. It claims that a citizen of that place has invented a plow that can be operated by a gasoline engine of his contrivance, that with one man to direct it, will plow, plant the seed and harrow in, twenty five acres of wheat in a day. If this proves a success it will effect quite a revolution in agriculture and cheapen the cost of producing wheat, and consequently make bread cheaper.

If the machine can be run by gasoline, it will not be much trouble to adjust it to electricity and thus enable our farmers to plow, sow and harvest their grain crops by a force that abounds in every running stream in the land, and not have to depend on distant oil fields and oil kings for motive power.

It is to be hoped that the city council while in session this evening will take steps to remove the old city jail from its present position. It is certainly an eye sore to the residents of that part of the city, and should be removed.

Discount Sale

During the next twenty days the Rainbow store will inaugurate a special sale. Every article in the store will be discounted to the very lowest possible point and a critical inspection proves that our prices cannot be duplicated in the city. All we ask is a personal inspection of the quality of our goods and we will leave the prices to your best judgement. The discounts will vary on various lines of goods. This includes our entire line of new fall goods many of which have just been placed on the shelves. While special sales and in fact all kinds of sales are immensely popular in this city just now, we give you a cordial invitation to call and inspect our extraordinary Discount sale.

MONEY SAVING PAINT

Money saving in painting doesn't mean the use of cheap-by-the-gallon paint. It means the use of first-quality paint-paint that will cover most surface to the gallon, that will spread easy and save the painters' time, that will wear well and put off for the longest time the need for re-painting.

THE SHERWIN-WILLIAMS PAINT

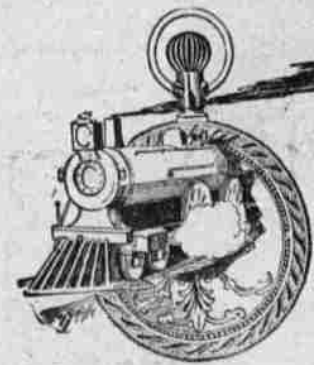

is a money saving paint. It covers most surface to the gallon because it is ground exceptionally fine and is thoroughly mixed. For the same reason, it spreads easiest and saves the painters' time.

It wears longest because it is made from the best materials, so thoroughly combined that they become inseparable, and hold together on the building for the longest time. When you buy The Sherwin-Williams Paint you buy economy. We sell it. Color cards free.
