WHY OREGON IS SLOW

It would produce an agreeable sensation to all genuine Republicans if they could discover in the signs of the times indications that both factions of the Republican party would cease to exist and patriotically die.

Their existence in the past has worked no good to the state or party.

A majority of the voters of Oregon have been believers in the doctrine of the Republican party since 1860; and it is but a fair contention that the Republican party is responsible, in a large degree, for the laws and management of the state for the past forty years, though within that period, owing to factional strife among Republicans, Democratic governors have sat in the chair of state at Salem rather more than half the time. During these years of factional strife the best interests of Oregon have been neglected, it suffered in its good name, and progress was handicapped. The voter saw nothing in Oregon politics but a scramble for office among the leaders and control of patronage by the bosses. Questions of state policy were ignored and any and every plan was resorted to with a callous indifference to right, that would secure an office and defeat a rival or secure a fat job.

It can be charged to this period; which with but short intervals one faction has been in control of the state and sent representatives to the national congress and have control of the federal offices, the state school land and other land grants from the U S to Oregon have been virtually squandered. The grant for common schools amounted to 3,419,522 acres or 5,343 square miles. A recent writer on public lands and forestry, Frank H Lamb, thus mentions Oregon's mode of dealing with its land: "Oregon has realized but little on the heritage for the benefit of the schools. The entire administration of the state lands has been marked by graft, incompetency and actual dishonesty. So little regard was the state paid to this source of wealth that the officials are unable to give any facts as to land still owned by the state or of returns received."

Those in power have been equally indifferent to the country roads as to the common schools and it is doubtful if any state, the age of Oregon, can show as bad roads as Oregon, and certainly no state has as broad an area, 59,000 square miles, wholly without railroads. This in the face of the oft repeated boasts of his adherents that he the great boss and U S senator, was in close touch with the only operating railway system the state is significant county and all of

south eastern Oregon have been left without transportation for a purpose.

Other important interests of the people have been equally neglected, to the general detriment of the resident population and a preventative of immigration. Oregon is larger and has more good land and other natural resources than either Washington or Idaho, yet both are settling up faster than Oregon. The U S census of 1900 show that in the ten years 1890 to 1900 the population of Idaho increased 82,80 per cent though its area is 10,270 square miles less than Oregon. For the same time Washington with 27,680 fewer square miles than Oregon increased its population 44 99 per cent while the increase of Oregon for the same time was 30.13 per cent.

It is high time the Republican party, the party of progress, get together and work to carry out the grand purposes of that party and not solely for men, to the shameful neglect of the people of our state.

CHEAP MEAT
Is High at Any Price
Some meat markets may sell you a good looking piece of meat for a few cents cheaper than it would cost you at a reliable market and you won't know until after you have tried to eat it that you have been deceived.
We offer you the best meats that can be bought anywhere—the best that money can buy. We guarantee it and charge a fair price, which is cheaper in the end. You cannot get something for nothing, especially in meats.
We have everything in the market line that you can wish for.

MEAT CHEAP
But not Cheap Meat
Having purchased the Book & Thomas shops and also the Bull Market, we are in position, with the three shops, to furnish our patrons with choice meats at a less price than if we had only one shop. It is not our intention to raise the price of meats, but it is our intention to reduce the price, and thereby hope to increase our trade. A trial order will convince you of the assertion.
