HEALTH AND SEWERAGE

The reappearance of diphtheria in the city on the north side of the railroad leads the people of that vicinity to believe that the dread disease is the direct result of poor drainage and lack of proper sewerage. The drainage from the O R & N shops runs through that part of the city in an open ditch, a sluggish stream that could easily breed disease.

This is not alone the only part of town without drainage, as the whole portion of the town lying below the bench is too flat to have drainage without a sewer system. Typhoid and scarlet fever and diphtheria will reign every year so long as there is no sewer. Human lives are the cost of this neglect. Something must be done. While the city is deep in debt a heroic effort should be made to provide a system whereby the health of the city may be preserved.

Heretofore a lack of water to carry off the sewerage has confronted the people but from this on water could be obtained from different sources to provide a perfect system.

WHEAT IN STOCK

The Crop Reporter, published by authority of the U S secretary of agriculture for Oct. 1905, gives the visible supply of wheat in the United States and Canada east of the Rocky mountains on October first this year at 28,894,000 bushels. On the same date last year it was 39,230,000 bushels. The visible supply of wheat on Oct 1st on the Pacific coast was 3,156,000 bushels. On Oct 1st 1904 it was 4,106,000 bushels.

CLOTHES CLEANED
The same old stand, but a new management. Take your suit to the same place, and have another man clean and press it the way it should be. Harvey does the cleaning and repairing and does it right. Another strong feature about his system is that his prices are correct.
Remember the place, next door to the Commercial club. Ladies and Gents clothing cleaned dyed pressed and repaired.
