### How Obstructions are Removed.

It is the habit of attentive examination to discover these irregularities of bones that has given this system its name, osteopathy.

If then, disease is simply an interference with the normal supply of blood and nerve force, and we have found the probable point of interference, the obvious method of treatment is to remove the obstruction. Slightly displaced bones can be replaced by sufficient patience and attention to the mechanics of the problem. Shortened muscles can be made to relax by gentle manipulation. Even thickened ligaments can be stretched by firm but cautious tension. These are the things which the osteopath aims to accomplish. When they are accomplished, the body forces and fluids pursue their normal course and upon them the osteopath depends to perform the healing of the disease.

## Tonight

In a story like that told in the play, "A Broken Heart" the interest of the auditors is alive from start to finish. There is a commingling of the elements that even separately would entertain, yet they are presented in a dramatic, harmonious manner that is always appreciated. Being a tale of mining life in the Rocky Mountains of Colorado, it is of especial interest, for human nature is the same the world over. The attention to detail and scenes is surprising in its completeness and reality. "A Broken Heart" will be presented at the Steward Opera house.

## OLD SORES SAP THE VITALITY AND UNDERMINE THE HEALTH

Old Sores that refuse to heal are a constant menace to health. They sap the vitality and undermine the constitution by draining the system of its very life fluids, and those afflicted with one of these ulcers grow despondent and almost desperate as one treatment after another fails. They patiently apply salves, washes, plasters, etc., but in spite of all these the sore refuses to heal and eats deeper into the surrounding flesh, destroying the tissues and growing to be a festering, inflamed and angry mass. The source of the trouble is in the blood. This vital fluid is filled with impurities and poisons which are constantly being discharged into the sore or ulcer, making it impossible for the place to heal. It will not do to depend on external applications for a cure, because they do not reach the real cause, and valuable time is lost experimenting with such treatment; the most they can do is keep the ulcer clean. Any sore that will not heal is dangerous, for the reason that it may have the deadly germs of Cancer behind it. A cure can be brought about only through a remedy that can change the quality of the blood, and this is what S. S. S. does. It goes to the very bottom of the trouble, drives out the poisons and germs with which it is filled, and purifies and builds up the entire circulation. By the use of S. S. S. the sore is supplied with new, rich blood which corrects the trouble, soon stops the discharge, and allows the place to heal naturally and permanently. S. S. S. also reinvigorates the entire system, and where the constitution has been depleted or broken down it quickly builds it up and restores perfect health. Write for our special book on sores and ulcers, and any medical advice you are in need of; no charge for either. THE SWIFT SPECIFIC CO., ATLANTA, GA.
