Nature Must Give Up Another Secret

The Idaho Development company operating the Trade Dollar Extension property, is continuing sinking on its discovery on that property some weeks ago, and is also stopping out ore from the banks on the same vein, to be hauled to the Adde mill for reduction, says the Silver City Nugget. The vein is holding up its width and values going down. In addition to this, the old "ice tunnel," driven several years ago, is having the ice cleaned out of it and will be driven further south to intercept the vein.

This tunnel is the most peculiar phenomenon of Florida mountain and has been frequently described. There is what is locally called the "pot hole," on the northeast point of the mountain, toward which Mr. Holland from a point 500 feet down the mountain, started to run a tunnel. After the tunnel had nearly reached the

point for which he was driving there came out of its face, from crevices in the rock, a draft of cold, dry air. This had the effect of condensing any moisture in the air in the tunnel and congealing it on the walls, like that moisture in a room condensing and congealing on a window glass. This has been continuing all the years—the temperature outside of the tunnel apparently not affecting it, as the freezing goes on in the hottest weather—until the tunnel has become almost filled with ice.

Surveys made since the vein was cut recently indicate that it runs further south than the present face of the tunnel, and the ice is being cut out to project it further with the hope of cutting the vein at depth.

People are curious to know if it will solve the mystery of that cold air draft.

Nordica To Wed

New York Oct 28—Miss Lillian Nordica will soon become the bride of Captain Joseph R De La Mar, the wealthy owner of the Idaho silver mine that bears his name.

The engagement was learned today on seemingly good authority. The singer could not be seen to verify the information, but Captain De La Mar would not deny it was so.

Lena Out Of "Soak"

Washington Oct 28—The navy department is informed that the transport Lena which has been interned at San Francisco since last spring, left the navy yards today and will sail for Russian ports next Sunday.

WARD OFF DISEASE

By fortifying your system with a reliable blood medicine. An alcoholic stimulant would do more harm than good and the reaction from it would leave you nearer complete prostration than ever before.

With stomach and blood in good order you can fight the battle of life successfully against all odds. GOLDEN SEAL ROOT (Hydrastis), is a famous remedy for dyspepsia, and QUINA'S ROOT (Sillimilla), has a direct action in promoting the renewal of the blood. Both of these are used in Dr. Pierce's Golden Medical Discovery in such a way, by skillful extraction, combination and solution without alcohol, that their best effects are secured.

Many years of actual practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for continuous use as tonic and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of the ingredients. The publication of the names of the ingredients on the wrapper of every bottle hereafter to be sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an "unknown remedy."

The Original LITTLE LIVER PILLS, first put up by old Dr. E. V. Pierce over 40 years ago. Much imitated, but never equaled. Little pill, little dose, but give great results in a curative way in all derangements of Stomach, Liver and Bowels.

"Common Sense Medical Adviser" will be sent free, paper-bound, for 21 one-cent stamps, to pay the cost of mailing only, or cloth-bound for 31 stamps. Address Dr. R. V. Pierce 663 Main Street, Buffalo, N. Y.

Autos Battle Balloon

Paris Oct 28—The Lebaudy military dirigible balloon made its third successful flight today and manoeuvred against the wind.

Several army officers accompanied the balloon, dropping blank cartridges upon forts from an altitude of 4,500 feet, thus demonstrating the practicability of launching projectiles from dirigible balloons in times of war.

During the flight automobiles pursued the balloon and fired shots in its direction, showing that automobiles carrying light guns could seriously endanger aerial manoeuvres.

Sacred Heart Honored

Sacred Heart Academy, under the supervision of the Sisters of St Francis, have been notified that they have been awarded the gold medal for their educational exhibit at the Lewis and Clark fair.

This is certainly an honor that speaks well for the product of this school, and in honoring them, La Grande is likewise honored for having such an institution of learning in our city.

Sacred Heart Academy is equipped to offer the very best advantages to both day and boarding scholars.
