Charged With Robbery

The court of Justice of the Peace Hough has been occupied the greater part of the day in hearing the case of the State of Oregon versus Lon Dotson who is charged with being implicated in the assault and robbery of K. J. Martin in Union, October 14. Conarty, who was alleged to have been an accessory in the crime was given a hearing before a justice at Union and was bound over to the next term of circuit court. As the lawyers for both the defense and prosecution were occupied with a case at the court house, the arguments were not made until late this afternoon and Justice Hough has not yet given his opinion in the case.

The Stein-Bloch Wool Test

The Stein-Bloch Wool Test consists of a boiling solution of water and caustic potash, the chemical action of which dissolves wool but not cotton. The two samples here shown were originally of the same length, the test proved one to be all wool, consulting the part immersed and leaving only the blackened edge. The other proved to be an adulteration containing a large per cent of mercerized cotton.

PURE WOOLEN CLOTH will wear and keep its shape under any conditions. Cotton adulterated will not. All fabrics received by the Stein-Bloch tailors must pass the wool test or be rejected. From the accepted fabrics our Stein-Bloch Smart Clothes are made. They are pure wool—a fact worth knowing and thinking about these days.
