

SORES-ULCERS THE BLOOD DISEASED SYSTEM DISORDERED

When a Sore or Ulcer is slow in healing it is the best evidence of a diseased condition of the blood and a disordered system. They show that the bodily impurities, which should pass off through the natural channels of nature, are being retained in the system from some cause. The blood absorbing the waste matters becomes steeped in poison which finds an outlet through the Sore or Ulcer, keeping it inflamed, painful and festering. As the blood constantly discharges its poison into these places, they eat deeper into the surrounding flesh and tissues, growing larger and more offensive in spite of all the sufferer can do, until the entire health is affected. Washes, salves, powders and such treatment are desirable for the reason that they are cleansing and also help to relieve the pain, but they are in no way curative. The blood is filled with poison, and until it is removed the sore cannot heal. S. S. S. is the only cure for these evidences of impure blood. It goes down to the root of the trouble, and cleanses the circulation of all poisons and impurities. S. S. S. enriches the blood and reinvigorates the different members of the body so that the impurities and waste matters can pass off as nature intended. Then the discharge ceases, the sore scabs over, new flesh is formed, and the place heals permanently. Look on Sores and Ulcers and any medical advice you need without charge.

S.S.S.

PURELY VEGETABLE. I have not words strong enough to praise your great medicine. I had a sore on my left temple for years. It would itch, burn and bleed, and I could not get it to heal. After taking S. S. S. while it began to discharge, and when the poisonous matter was out it healed. This was about ten years ago and I have never seen any sign of it since. Gant, Mo. JOSEPHUS REID.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SPECIAL COURSE FOR DIARYMEN

The Oregon Agricultural College at Corvallis will offer this winter, as usual, two special courses along agricultural lines, which will be designated The Short Course in Agriculture, and The Special Dairy Course. The short Course in Agriculture will open on Monday, January 8, 1906, at 9:00 A. M. and continue two weeks, closing on Friday, January 19. The course consists of a series of popular lectures along lines suited to aid horticulturists, dairymen, and others engaged in agricultural pursuits in developing the great natural resources of our state. The lectures are supplemented by laboratory work under the auspices of experts who strive to make the course thoroughly practical by adapting the work as far as possible to the needs of each individual. The Special Dairy Course will also open on January 8, 1906, and will continue six weeks, closing on February 16, 1906. The purpose of this course is to familiarize students with the modern forms of dairy apparatus, and teach the underlying principles of the production, care, and manufacture of milk into butter and cheese. Students will meet for work six days per week. The forenoon of each day will be devoted to practical work in the dairy rooms. In the afternoon of each day, except those devoted to cheese making, lectures and recitations will occupy the time during two or three hours. In addition to the regular teaching force the services of an expert cheese maker, Mr. W. W. Grant, have been secured in the California Dairy School, and has had a wide experience as traveling dairy instructor in Canada. There will be no charge for tuition, and no educational entrance requirements, for either of these courses. Board and room can be had in Corvallis at \$3.00 to \$4.00 per week. A cordial invitation is extended to all persons interested to enroll in one of these courses. An outline of the course can be had for the asking. For further information address: F. L. KENT, CORVALLIS, OREGON.

LUMBER

RETAILED AT WHOLESALE PRICES

Better Lumber and Cheaper than it is sold in La Grande. We Deliver it to your Building.

STANIELS & JARMAN, Dealers in Wall Paper, Paints, Oils, Glass, Etc

Thirty Years

"Yes sir, many changes have taken place since I came into this valley some thirty years ago. At that time about all there was in this valley was a few buildings at the foot of the hill where the stage changed horses. Few at that time even dreamed that a railroad would ever penetrate into this fertile spot, and in fact it was generally thought that the center of the valley was absolutely non-productive. That idea is pretty well exploited now. I know of no more productive valley in the west than this, and firmly believe that another ten years will bring about as many more surprises in the way of development. I am well pleased with the growth of the town and am perfectly satisfied with the investments which I have seen fit to make here. Your town shows a steady and permanent growth, and to one who has seen this valley as it was thirty years ago, and again now filled to overflowing with all that tends to make a prosperous community, the change is certainly startling."

The above is a statement made by Mr. L. Krantz, of Oakland, California, who with his wife is in the city visiting his sister Mrs. Gangloff. Mr. L. Krantz passed through this valley nearly thirty years ago, and therefore, the changes made during that time made somewhat of an impression upon him.

Many people are superstitious as to the number thirteen. And yet why should they be? The original states of the union were thirteen as everybody knows, and no one would be considered unlucky because he had a quarter of a dollar in his pocket, and yet the coin is impressed with "thirteen" all over its two sides. Count the letters in "quarter dollar" and you have thirteen. Count the stars over the eagle's head—thirteen. The eagle holds in his beak a scroll. Count the letters "E Pluribus Unum" impressed thereon—thirteen. In one talon the eagle grasps a quiver full of darts—thirteen; in the other a branch which has thirteen leaves. In each of the eagle's wings there are thirteen feathers and the tail feathers number the same. Count the crossbars in the shield on the eagle's breast—thirteen. Turn the quarter over. There are thirteen stars surrounding Liberty and thirteen leaves in her wreath. If this is unlucky who wouldn't have a barrel of it?

Stationery and Writing Materials

We try to keep this stock right up-to-date in every particular, and apparently already have the fashionable trade of the town. When you want stylish correspondence paper, you will find it at Hill's Drug Store.

Saved By Dynamite

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Gripe, for sale by Newlin Drug Co. Price 50c and \$1.00; guaranteed. Trial bottle free.

Last Night Of Show

The Zinn Travesty company closed their week's engagement Saturday night with "The Sultan of Morocco," which was probably their best bill. Tony West and Rea Irvin were the whole show, taking the part of shipwrecked sailors who by mistake had entered the sultan's harem. Their trials and tribulations in making themselves unknown and attempting to escape were indeed laughable. The company proceeded to Pendleton Sunday morning where a three night's stand will be made.

Geer Active

Ex-Governor T. T. Geer, who is favorably mentioned as a candidate for United States senator from Oregon, is in the city today attending the Umatilla county teachers' institute and visiting friends. Mr. Geer is highly interested in educational affairs and never misses an opportunity to attend a teachers' institute. His visit here has absolutely no political significance as he came to the city on personal business, and while here attended the institute with Superintendent Ackerman—East Oregonian.

Heney Campaigning

Francis J. Heney who has won fame as a prosecutor of land frauds in this state, is now making a stump campaign in the municipal election in San Francisco. He is supporting Partridge for mayor.

Three Weeks Yet

It is estimated that three weeks will be required to complete the sugar beet run at the factory. To date, about 20,000 tons of beets have been worked up, and there remains about 8,000 tons to be run through. The output of the factory this year will be 50,000 sacks, about the same as last.

Unusal But True.

It's seldom a drug store is so finely stocked with goods for ladies' trade as the store of Newlin Drug Co. Their splendid stock of beauty goods and toilet articles and preparations cannot be duplicated in this vicinity and it will pay ladies to make it in their way to look over these goods purchasing even trivial articles for the toilet use. This firm has long enjoyed a large share of ladies' trade and therefore the buyer knows what goods give the greatest satisfaction. When you want unusual or specially elegant toilet preparations you are pretty sure to find them there.
