CATARRH FIRST A COLD THEN CATARRH THEN CONSUMPTION

A cold in the head is a common ailment, but it rarely ever stops there. It often grows stubborn and protracted, the mucous membranes, or inner lining of the body, become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh. Then follow the unpleasant symptoms of "hawking and spitting," ringing noise in the ears, headache, poor appetite, mucus dropping back into the throat, and a feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption. The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all Catarrhal matter and poisons, and effectually checks the progress of this dangerous and far reaching disease. S. S. S. keeps the blood in perfect order so that Catarrh cannot remain; and as this pure, healthy blood goes to every nook and corner of the body, the entire system is strengthened and invigorated, and the symptoms all pass away. Book with information about Catarrh and medical advice free.

**CHINA WILL BE
A GREAT FACTOR**

**Will Soon Maintain a Standing Army of
800,000 Can Support 1,200,000,000
People**

Ning Poon Chew, managing editor of the "Chung Sai Yat Po," the Chinese daily paper of San Francisco, was in town yesterday afternoon enroute to Chicago. He says the American government is badly mistaken in the rigidity of its exclusion of the Chinese, and that the boycott against American goods is being pushed strongly in the orient in consequence. Mr. Chew is a member of the Chinese Presbyterian church in San Francisco which has distinguished itself by giving largely to foreign missions. He has been 25 years in this country. He believes the prospect for China is bright, and says: "I believe that in 12 years she will have a constitution, and in 20 years a standing army of 800,000, where now she has a sitting army. China has vast resources. She can support 1,200,000,000 people while now she has a population of 400,000,000. She has enough coal to supply the world for 2000 years.

She has silver and gold in abundance. Her iron supply is practically inexhaustible. And now China is beginning to awaken and ask herself why, with all these resources, she has stood still while Japan has advanced. They are beginning to wonder why China has been unable to resist Russian oppression while Japan successfully undertook to do it. "Already rapid progress has been made toward an enlightened system of government and education. There are 150 students in the United States, sent here by the Chinese government. There are 8000 in Japan, and something like 500 in Europe. There are great things ahead for China and the Chinese. Chinese resources are unbounded, while every Chinese youth, no matter how humble his station, may rise to that of any public official by the exercise of his own industry. In the latter exception, all government positions are open by examination."—Deseret News.

**Car Shortage is Now
Relieved On O. R. & N.**

**Coal Shortage Not Caused by Lack of
Cars But over Crouded Mines**

According to O. R. & N. officials, conditions as to the supply of cars along the O. R. & N. are about as usual at this time of the year. While the warehouses are in need of cars, yet they all agree that the available cars for wheat shipments should be sent to the Washington division where hundreds of tons of wheat are lying in the fields unprotected from the weather. This naturally makes a temporarily shortage on the Oregon division of the lines, but this is not serious in any way. There are plenty of cars for the wood shipments and all livestock shipments are immediately furnished with ample cars. The coal famine which has hovered over Eastern Oregon for some time is not

due to a shortage of cars so much as to the enormous orders which have snowed under all the coal companies furnishing this district. One La Grande dealer has just received a letter from a Wyoming coal company which supplies La Grande, Pendleton and Walla Walla, stating that it was 1000 cars behind its orders, and another company, which also sends considerable coal to Oregon, is 700 cars behind its orders. The car shortage is in no way responsible for the delay of shipments, but the capacity of the mines is crowded to the limit and coal can only be sent west as it is mined. Cars are plentiful for all shipments that are mined, along the Union Pacific and Short Line.

Saved By Dynamite

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe, for sale by Newlin Drug Co. Price 50c and \$1.00; guaranteed. Trial bottle free.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death. "As a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life, I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters.
