HATFIELD IS A RAIN PRODUCER

Riverside, Cal.—A slender, unassuming young man, with a cabinet of mystery, has caused the people of southern California to doubt within the last three months the Creator's control over the elements. The young man is Charles M. Hatfield. He promised 18 inches of rainfall for the season.

The season's rainfall in Los Angeles has not been 18 inches for ten years. It has amounted to that only three times in 20 years, and the average for 50 years has been only about half that amount.

With a desperate outlook for another drought, a subscription was taken up and Hatfield was promised \$1,000 if he delivered the 18 inches of rainfall time. Hatfield erected a "rain-making station" at Esperanza on the slope of Mount Wilson, and set to work. Since that time, hardly a week has passed without a heavy rain. Repeatedly Hatfield has called the exact time when a storm would arrive.

The heaviest precipitation has been at or near the place where he has erected his cabinet.

For Benefit of Lovers.
In Wales the town council has erected a footbridge over a stream in the district. This was because lovers had complained that a favorite walk along the side of the river Dee had been previously rendered uncomfortable, the couples having to wade through the stream.

STRAYED STOCK

It stops the cough and heals the lungs and prevents serious results from a cold.

Do not take chances on a cold wearing away or experiment with some unknown preparation that costs you the same as Foley's Honey and Tar. Remember the name and get the genuine.

A Severe Cold for Three Months.

The following letter from A. J. Nussbaum, of Batesville, Ind., tells its own story: "I suffered for three months with a severe cold. A druggist prepared me some medicine, and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar, and eight doses cured me."

Three sizes—25c, 50c, \$1.00.
The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.
