RESULTS OF A CAREFUL SYSTEM OF PUBLICITY

How a Young Man by Careful Attention to Business has been Able to Climb the Ladder of Railroad Promotion.

"The Fourth Estate," a New York publication devoted to the newspaper and advertising field, prints on the front page of its last issue an excellent likeness of George H. Daniels, formerly of this city. It contains an account of his promotion from general passenger agent to the position of general advertising manager, and prints the following biography:

"Mr. Daniels was born on a farm at Hampshire, Ill., in 1842, and at the age of fifteen became a rodman in the engineering corps of the North Missouri railroad. He advanced rapidly, and in 1872 was made general freight and passenger agent to the Chicago and Pacific railroad. From 1882 he was general ticket agent of the Wabash, St. Louis and Pacific, and then became commissioner of the Iowa Trunk Line association. Ten months later he was elected commissioner of the Colorado Traffic association and Passenger committee, which was merged into the Central Traffic association, of which Mr. Daniels was elected vice chairman, and also chairman of the Chicago Eastbound Passenger committee. This was his position in 1889, when he was appointed general passenger agent of the New York Central.

IS A MAN OF IDEAS

"He at once began to put into effect many new ideas for bettering passenger traffic and for advertising the road. The New York Central has gained an enviable prestige through Mr. Daniels' advertising. He originated the name 'Empire State Express,' famous the world over. He induced the postoffice department to picture the train on the two-cent Pan-American stamp. Mr. Daniels will retain his connection with the 'Four Track News,' which he established."

Editorially the same publication speaks of him as follows:

BIG ROOM IN ADVERTISING

"Not many years ago the advertising of railroads was dull, the only advertising

being of an occasional excursion, and of time tables. But widely extended, vigorous and attractive advertising of railroads is comparatively new.

"The creation of a department of advertising for the New York Central lines is an important event in the history of publicity. Whether railroads would be economically managed by the government in this country is a question with two sides. But we know that under private ownership sources of expenditure are closely watched and offices are not multiplied for the sake of providing salaries for men with a pull.

HIS CHOICE INDISPENSABLE

"It is evidently the deliberate judgment of the New York Central management that advertising pays. The selection of George H. Daniels as manager of the system's new department of advertising was a foregone conclusion when once the innovation had been decided on."

Saved By Dynamite

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and L. Grippe, for sale by Newlin Drug Co. Price 50c and \$1.00; guaranteed. Trial free.
