"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at Newlin's Drug

**A FEW NEEDS OF OUR NORTHERN POSSESSIONS**

More Roads, More Representatives, More Judges, More Law, More of All that Goes to Make for Civilization.

(Scripps-News Association)  
 Washington, Jan. 9.—Here are some of the recommendations that Governor John G. Brady makes in his annual report on the District of Alaska just submitted to the Secretary of the Interior:—  
 That wagon and railroad construction in the great river valleys and the extension of the systems of cable and telegraphs, particularly to Ketchikan, be encouraged.  
 That representation in Congress be given the District, if possible, through a delegate elected by the people; if not, through a commission appointed from among bona fide residents.  
 That a careful Congressional investigation be made into the number of residents and their condition previous to the authorization of a local legislature with the power of taxation. Territorial government is a sort of medicine to be avoided as long as possible, says he, "even if quacks insist it is the only remedy."  
 That a fourth judicial district be created better to protect life and business interests, particularly the canning industry.  
 That a mining commissioner be appointed. The mining industry is now too large and too widespread and important says the governor, "to let run in this slipshod sort of style any longer."  
 That water rights in the Seward peninsula be determined, in order to insure justice to the small miner.  
 That governmental medical inspection, be required of employees in the salmon canneries.  
 That the question of seal hunting be taken up with Great Britain, Japan and Russia and that the killing of seals be stopped on St. Paul's and on St. George's islands for eight or ten years, the natives being deported.

**CAPTAIN ILLFATED SLOCUM RECEIVES INVESTIGATION**

The Commander of the Destroyed Ship is on Trial—The Government Takes a Hand.

New York, January 9.—The trial of Captain William Van Schaick, former commander of the excursion steamer General Slocum, the ill fated boat, which burned in the East river on June 15, 1904, while it had a large Sunday School excursion on board, of which over 1000, mostly women and children, lost their lives, began today, before Judge Thomas in the federal circuit court. Captain Van Schaick is charged with negligence in the performance of his duties as commander of the Slocum and it is understood that Gen. Henry L. Burnett, the United States District Attorney, who represents the state, or rather the United States government, will make a determined effort to obtain a conviction.  
 The case is still fresh in the memory of the people, although a year and a half has elapsed since the terrible disaster. In thousands of homes the loss of dear relatives and friends, who lost their lives in the Slocum disaster, is deeply mourned and the strong feeling against Captain Van Schaick, who is, to a great extent, held responsible for the terrible loss of lives, has not decreased much since then. Public opinion demands that severe punishment be meted out to those who were responsible for the disaster and up to the present time comparatively little has been done to satisfy this demand.

**A NEW DRUG STORE IN AN OLD STAND**

Mr. F. C. Forbes owner of the drug store known as the Red Cross Drug Co. of La Grande has sold out his entire interest in the business. Mr. A. C. MacLennan, of Omaha, Neb., and formerly of Toronto Canada, has purchased and has full charge of the new business and will run it under the name of the Red Cross drug store. Mr. MacLennan is a graduate of the Ontario College of Pharmacy, Toronto, Canada, and is registered by examination in several states. He has had ten years of experience in the drug business some of which were spent with the Sherman, McConnell Drug Co. Omaha, Nebraska, the largest firm of prescription druggists in the middle west. Mr. Louis Auger, a graduate of the Mary and college, and who has been employed at the Red Cross Store for some time will continue there under the new ownership.

**COST OF SOLOMON'S TEMPLE**

Solomon's temple flourished before the days of modern "Graft," but it may be wondered what became of all the jewels and precious stones, for the talents of gold, silver and brass used in the construction of the temple were valued at about thirty-five billions of dollars, and the jewels about the same, according to Villapandus. The consecrated vessels of gold amounted to two and three quarter billions; of silver two and one-half billions; the vestments and musical instruments to eleven and one-quarter millions. There were ten thousand men employed to hew timber, seven thousand as burden carriers, twenty thousand as hewers of stones, thirty-three hundred overseers, all of whom were employed for seven years and upon whom Solomon bestowed as a gift thirty millions of dollars. Adding the food and wages the total would be over four hundred and fifty millions of dollars. The costly stone and timber equalled twelve billion more and the whole total has been carefully estimated at \$77,521,965,655.

**MILK TALK No. 1. CHEAP MILK OR MILK CHEAP, WHICH?**

Are you buying your milk cheap or are you getting cheap milk? That is the question which every consumer should consider before buying. There are five properties contained in milk, viz; ash, or bone material, casein or curd, butterfat, sugar, and water, in proportion of .3 or 1% ash, 3.3% casein, 4% butterfat, 5% sugar, 87% water. Now there are 10% solids and 87% water in a 4% milk, that is in milk containing 4% butterfat. This ratio holds good whether of a high or low test, i. e. if you have a milk testing 0% the other solids will be increased in proportion, if a 3% they will decrease in like manner. Now the solids are what is, or what should be considered in buying milk, as the water can be had for the pumping. Now let us consider for a moment before we buy whether we are paying a high or low price for these solids. A 5% milk contains 9.75% solids and 90.25% water, a 4% milk contains 16.25% solids and 83.75% water. Now if a 3% milk is worth \$1.50 per quart per month, what should a 5% sell for? Let's see, if we pay \$1.50 for milk containing 9.75% solids, at the same price milk containing 16.25% solids should sell for \$2.00, or you can get every three quarts of 5% milk add two quarts of water, making 5 quarts of 3% milk, i. e. three quarts of 5% milk is equal to five quarts of 3% milk, at the present price 3 quarts of 3% milk is \$4.50, 5 quarts of 5% milk is \$7.50, you are getting the same amount of solids for \$6.00 in a 5% milk that you get in a 3% milk for \$7.50. Are you getting your milk cheap or are you getting cheap milk, which?

**DID NOT PROSECUTE**  
 Tacoma, Jan. 9.—A grand jury was assembled today, and was dismissed within ten minutes by Judge Snell. County Attorney Bates said that he had no evidence to put before the jury.  
 A citizens' committee of 12, which has been probing affairs for six months, refused to place its evidence before the jury unless a special prosecutor was appointed. The judge said that the calling of the jury seemed to have been unnecessary, and promptly sent the jurors home.  
 This was the shortest session of the grand jury on record.
