Grande Ronde Valley residents are enjoying a respite from winter weather. Many are predicting that this will be an end to the winter, but experience has taught us that there will yet be several heavy falls of snow to fill the streams in summer and aid the lumbermen.

So far as noticed, it is believed that the concrete cross-walks build last fall will prove to be the best ever built in this city. They shed mud and water much better than the old style wooden ones and should their wearing qualities equal the others they will come to stay and there will be more built every year.

Senator Gearin today secured from Secretary Hitchcock an important promise of relief from the inconvenience, expense and trouble under which the entrymen upon Oregon lands have been laboring for the past year.

March fifth last, in view of the land fraud disclosures in Oregon, Secretary Hitchcock found it necessary to issue a blanket order withholding from patent all Oregon land entries. This served the purpose of checking the fraudulent entries, but it also caused the innocent and bona fide entrymen much trouble and cast a stigma upon the whole state of Oregon.

PERTINENT QUESTIONS

If you were called upon to take a seat in the Oregon legislature, what definite knowledge would you have of state affairs? When you cast your vote at the primary election to select candidates to be voted for in June you are supposed to name men to go to the Oregon legislature to represent your interest and wishes as to how the state government should be run. Have you formed a definite idea of how you think your representative should vote when in the legislature on matters of state policies? They will have to vote on financial questions, educational ones and morals. What ideas have you formed about all these? Under the Initiative and Referendum law each voter has been made a law maker, who sends men to the legislature to put the laws he wishes on the statute books. Now what laws do you want your representatives to make?

HIS PLATFORM

Mr Harry Graham, in his announcement as a candidate for congress as a Democrat, gives the platform of principles that will guide his official action in congress, if elected, and, among others, gives out for the consideration of the voters of this district the following:

"Believing our infant industries large enough to wean, I favor a tariff system for government expenses only and not for the special protection of any industry." If the above has any practical meaning it is that all our industries old and young should be thrown in competition with all similar ones in Europe, Asia and Africa where labor is cheaper than in the United States; and that a flat tariff be levied on all foreign goods without any care for American producers, or manufacturers. The present tariff admits 44.5 per cent of foreign imports free and charged for the 10 months ending with October 1905 \$261,274,565 on the other 55.2 per cent of imported stuffs.

Mr Graham would charge the same tariff rate on coffee, tea and other things that can not be produced in the United States as on fruits, wool, cotton, sugar

and the manufactured articles therefrom. The present tariff charges are levied with the purpose of using the powers of the government to not only raise revenue but also to encourage American producers and manufacturers and give employment to American laborers.

A Severe Cold for Three Months.

The following letter from A. J. Nussbaum, of Batesville, Ind., tells its own story: "I suffered for three months with a severe cold. A druggist prepared me some medicine, and a physician prescribed for me, yet I did not improve, I then tried Foley's Honey and Tar, and eight doses cured me."
