LA GRANDE PUBLIC SCHOOL

Ninety song books have been ordered for the use of the High School and eighth grade. The songs are mostly college songs and will very much augment the life and spirit of the school.

Our basket ball girls are working assiduously in the matter of preparation for the coming basket ball game with Pendleton, which is to be played next Friday evening at Pendleton. They have asked Mr. Williams to referee the game, and Mrs. Martin to be their chaperon.

Shortly after the game with Pendleton the girls will play with Baker City at that place, and later the return game will be played here.

At a recent meeting of the senior class it was decided by a unanimous vote to give a play between now and Commencement time. It is their purpose to give "Merchant of Venice, Up-to-Date," a play well fitted to the personalities of the class, and one which is sure to please all who are fortunate enough to hear it. Further announcements will be made later.

Florence Boory and George Currey are still out of school, but hope to re-enter next week.

Examinations will be in progress this week. Children who for any reason, fail to take the examination, will be examined on their entrance by the superintendent, inasmuch as teachers will be too busy.

Misses Bunnell, Snider and Woodruff have recently given off-hand addresses before the Senior history class.

Mesdames Eakin and Smith have been recent visitors at our spelling matches.

On Thursday forenoon, from recess to noon, a spelling match was held in the upper corridor of the High School building, between the A-fifth grade, taught by Miss Harris, and the B-sixth grade, taught by Miss Brenholts. It was an interesting match and was won by Charles Harris, of the B-sixth grade, on the word mortar. Hazel Young was the last to go down in the A-fifth grade, missing the word sirloin.

Miss Kuhn's and Miss Rohan's seventh and eighth grades held a spelling match after recess in the afternoon on Thursday. Miss Van Fleet of the eighth grade, was the victor on the word embarrass. Jeanette Wheatley was the last to go down in the seventh grade.

On Friday afternoon after recess, a spelling match was held between Mr. Snider's B-fifth and Miss Harris' A-fifth resulting in a victory for the A-fifth. Irene Lyman was the victor over both rooms, by spelling sorrow correctly. Edward Roberts was the last to go down in Mr. Snider's room.

The spelling contests will be continued until better spelling has been secured, or at least, until there is an evidence of improvement.

Our boys were defeated at the last basket ball game with the Militia boys. Messrs Glare Gillian and Elton Jackson were guests at the High School literary society last Friday afternoon.

On Monday morning, Jan. 22, all pupils will report at the same rooms which they have been attending for the past four and a half months, and each teacher will make the promotions from her room.

The State University Glee Club is to appear here on the evening of St. Valentine's Day.

A county teachers' meeting will hold morning and afternoon sessions in Room 10, High School building on Saturday, Jan. 27.

Next city teachers' meeting, January 26. Mr. Snider and Miss Harris will present papers.

A quartette composed of Misses Williams, Aldrich, McKinlay, and Mrs. Martin are to sing at the county teachers' meeting Jan. 27.

Mr. Williams will talk on physical culture at the coming county teachers' meeting and Miss Kuhn will read a paper on Art.

TO RELIEVE COAL FAMINE

Orders for 27 cars of wood have been received at Meacham and it is being loaded for the towns east of here where the coal scarcity is prevalent. A large amount of this wood is destined for Boise and other Idaho towns, with a little to be distributed among the extreme eastern Oregon towns.

WAKE UP LA GRANDE

La Grande, Ore., Jan. 15, 1906.
To the business men of La Grande:
The year of 1906 promises to be a banner year all over the coast and inland territory.

The Louis and Clark Fair caused many eastern people to come and look at our country. The sight was pleasing to their eyes; it awoke their curiosity. They have commenced to investigate the conditions and prices of what can be bought. The real estate agents have to the best of their ability tried to show up the advantages of the country but it is a very weak showing they are able to furnish of this grand site unsurpassed by none unequalled by very few, but the people must be educated up to this fact and the men who only get a small fee in commission for the sale of a small piece of property in this city or county cannot alone do justice to this country. I say the business men should join us in letting other countries know that we are on earth.

Take other cities around us and see what they are doing to attract attention. Lewiston, Walla Walla, Pendleton, North Yakama, Baker City and other towns with not half our resources are striding along while we sleep. How do they do it? Well, you take a trip around the country and you will hear people talk, and if you visit any of these places you will know more about them than you do of your own city, La Grande. They collect all the information about their country and city and put it on paper. They see that it is placed where people will read about their towns if they want a lot in it or a farm near it. After they get a home in or near your city the business men sell to each family and gets more profit each year than the real estate agent out of the home he sold to this family. To figure, the business men, they get as much profit from immigrations the real estate men and should therefore share the expense of writing up this part of the country, if you wish to share part of the trade that is coming west.

Nature has done more for this country around La Grande than any other section I have ever seen. Spreading out to the east from our city is the beautiful valley sixteen by twenty-five miles of garden and orchard lands, on which there should be a thousand where today there are a hundred homes. Back of our city and surrounding this valley are the mountains of pine casting their blue shadows over us; a beautiful frame around a very pleasant picture only needing the artist hand to produce it on paper and scatter it broadcast over the land, with a fair description of all the resources of the country, to cause hundreds of eastern people to flock to this country instead of going to other lands.

This is not a real estate ad, its for the purpose of having the business men help advertise the country and themselves also, and a writing up of this country by a Commercial Club or a business man has weight with the prospective settlers that would be termed as wild cat schemes of real estate sharks. Have you money enough, or too much trade so you don't want any more eastern people to come here? If not, think this over and push it along.

Yours Respectfully,
G. H. POWERS

FOUND DEAD.

Found dead on the top of a hay stack in a field on the lower Baldock ranch about 10 o'clock yesterday was the body of J. A. Riggs guarded by his faithful dog from the attacks of vultures. The discovery was made by Camp Tender Fox and at the bottom of the hay stack was the team of horses which had been standing there since 7 o'clock the morning before, when Riggs started out on his regular feeding trip.

Riggs was in the employ of the rancher and it was his daily custom to feed the stock. He had not been seen at the home farm since last Sunday. He lived in Baker City with his family, his wife being the daughter of a well known Baker county pioneer. She is a hard working woman and Mr. Riggs was a hard working man. The sympathy of the public is with the wife and children in this, their time of bereavement.—Democrat.

MILK TALK No. 1.

CHEAP MILK OR MILK CHEAP, WHICH?

Are you buying your milk cheap or are you getting cheap milk? That is the question which every consumer should consider before buying. There are five properties contained in milk, viz: ash, or bone material, casein or curd, butterfat, sugar, and water, in proportion of 3 of 1% ash, 3.5% casein, 4% butterfat, 5% sugar, 87% water. Now there are 15% solids and 87% water in a 4% milk, that is in milk containing 4% butterfat. This ratio holds good whether of a high or low test, i. e. if you have a milk testing 5%, the other solids will be increased in proportion, if a 3% they will decrease in like manner. Now the solids are what is, or what should be considered in buying milk, as the water can be had for the pumping. Now let us consider for a moment before we buy whether we are paying a high or low price for these solids. A 3% milk contains 9.75% solids and 90.25% water, a 5% milk contains 16.25% solids and 83.75% water. Now if a 3% milk is worth \$1.50 per quart per month, what should a 5% sell for? Let's see, if we pay \$1.50 for milk containing 9.75% solids, at the same price milk containing 16.25% solids should sell for \$2.50, or you can to every three quarts of 3% milk add two quarts of water, making a quart of 3% milk, i. e. three quarts of 3% milk is equal to five quarts of 5% milk, at the present price 5 quarts of 3% milk @ \$1.50 = \$7.50; three quarts of 5% milk @ \$2.00 = \$6.00, i. e. you are getting the same amount of solids for \$6.00 in a 5% milk that you get in a 3% milk for \$7.50. Are you getting your milk cheap or are you getting cheap milk, which? SPRING BROOK DAIRY SELLS 5% MILK
