MRS. HEATER GETS \$2600

On behalf of his daughter, Mrs. James
Heater, whose husband was killed in a
train wreck on the O. R. & N. September
22nd; Joseph Kirchoff, the administrator
of his estate, claiming that the
crown sheet which fell and caused the
wreck was about to sue the company for
damages was deflected.

Looking over the company's At torneys
Menefee & Wilson were in doubt as to
whether any recovery could be made, the
company denying their liability for the
accident, and took the matter up with the
company.

As a result, the company agreed to
settle with Mrs. Heater, the widow of
the dead fireman, for \$2500, which offer
was accepted and the money will be paid
over to her.—The Dalles Chronicle.

HOW ABOUT PLATFORMS

Under the primary election law which
going to prepare and put forth the plat-
forms of the various political parties?
This is a question which is causing a
great deal of discussion at this time. There
is no convention for the purpose of adopt-
ing a platform and no provision made in
the law for submitting a platform or any-
thing of the kind to voters. It is not to
be presumed that each voter will write a
complete platform on his ballot, when he
goes to vote.—Baker City Herald.

RHEUMATISM AN INSIDIOUS DISEASE THAT BREAKS DOWN THE STRONGEST

Rheumatism does not come on in a day; the
causes that produce it work silently in the system for years. This insidious
disease becomes entrenched in the blood, and some exposure to cold or damp
weather, or slight indiscretion brings on an attack. Poor digestion, stomach
troubles, weak kidneys, torpid liver, and a general sluggish condition of
the system are responsible for Rheumatism. Food souring in the stomach
poisons the blood, the failure of the kidneys and liver to act properly leaves
waste matter and impurities in the system, which, coming in contact with
the natural acids of the body, form uric acid. This is absorbed by the blood,
and as it penetrates to the muscles, nerves and bones produces the terrible
pains and aches and other disagreeable symptoms of Rheumatism. Life is
made a torture by its excruciating pains, nerves are shattered, the health un-
dermined, and if the disease is not checked it breaks down the strongest con-
stitution. It will not do to depend on plasters, liniments, etc.; such treatment
is helpful in easing the pain and reducing the inflammation, but does not
reach the blood where the real trouble is located. S. S. S. cures Rheumatism
by purifying and invigorating the thin, acid
blood, driving out all impurities and poisons and
sending a stream of strong, rich blood to wash
out all irritating particles that are causing the
pain and inflammation. S. S. S. stimulates the
sluggish organs to better action, tones up the
stomach and digestion, restores nervous energy
and builds up the entire health. S. S. S. cures Rheumatism, whether acute
or chronic, and the cure is thorough and lasting. Book on Rheumatism
and any medical advice desired without charge.

MILK TALK No. 1. CHEAP MILK OR MILK CHEAP, WHICH?

Are you buying your milk cheap or
are you getting cheap milk? That
is the question which every con-
sumer should consider before
buying. There are five properties
contained in milk, viz: ash, or bone
material, casein or curd, butter-
fat, sugar, and water, in proportion
of 3 of 1.5 ash, 3.5% casein,
4% butterfat, 5% sugar, 87%
water. Now there are 15% solids
and 82% water in a 4% milk, that
is in milk containing 4% butterfat.
This ratio holds good whether of
a high or low test, i. e. if you
have a milk testing 5% the other
solids will be increased in propor-
portion, if a 3% they will decrease
in like manner. Now the solids are
what is, or what should be consid-
ered in buying milk, as the water
can be had for the pumping. Now
let us consider for a moment be-
fore we buy whether we are
paying a high or low price for these
solids. A 5% milk contains 9.75%
solids and 90.25% water, a 5% milk
contains 10.25% solids and
89.75% water. Now if a 5%
milk is worth \$1.50 per quart per
month, what should a 3% sell for?
Let's see, if we pay \$1.50 for milk
containing 9.75% solids, at the
same price milk containing 16.25%
solids should sell for \$2.60, or you
can to every three quarts of 5%
milk add two quarts of water,
making 5 quarts of 3% milk, i. e.
three quarts of 5% milk is equal
to five quarts of 3% milk at the
present price 5 quarts of 3% milk
(@ \$1.50=\$7.50; three quarts of
solids for \$6.00 in a 5% milk that
you get in a 3% milk for \$7.50. Are
you getting your milk cheap or are
you getting cheap milk, which?
