OLD SORES SAP THE VITALITY AND UNDERMINE THE HEALTH

Old sores that refuse to heal are a constant menace to health. They sap the vitality and undermine the constitution by draining the system of its very life fluids, and those afflicted with one of these ulcers grow despondent and almost desperate as one treatment after another fails. They patiently apply salves, washes, plasters, etc., but in spite of all these the sore refuses to heal and eats deeper into the surrounding flesh, destroying the tissues and growing to be a festering, inflamed and angry mass. The source of the trouble is in the blood. This vital fluid is filled with impurities and poisons which are constantly being discharged into the sore or ulcer, making it impossible for the place to heal. It will not do to depend on external applications for a cure, because they do not reach the real cause, and valuable time is lost experimenting with such treatment; the most they can do is keep the ulcer clean. Any sore that will not heal is dangerous, for the reason that it may have the deadly germs of Cancer behind it. A cure can be brought about only through a remedy that can change the quality of the blood, and this is what S. S. S. does. It goes to the very bottom of the trouble, drives out the poisons and germs with which it is filled, and purifies and builds up the entire circulation. By the use of S. S. S. the sore is supplied with new, rich blood which corrects the trouble, soon stops the discharge, and allows the place to heal naturally and permanently. S. S. S. also reinvigorates the entire system, and where the constitution has been depleted or broken down it quickly builds it up and restores perfect health. Write for our special book on sores and ulcers, and any medical advice you are in need of, no charge for either. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

THE WORLD'S NAVIES

The people of the United States are just now thinking about how a European war may effect their trade with people over the seas. When people get to war they are prone to do many naughty things. This is especially true when an armed ship of one nation finds an unarmed one on the high seas loaded with things destined for the enemies country. As the United States has about a billion and a half dollars worth of stuffs on the ocean annually in unarmed ships, it becomes interesting to know how many war ships the nations of the world now have. A dispatch from London gives the following list of the war ships belonging to the several nations that proul on the oceans over which our foreign trade has to pass and repass.

As for the outlook—it suggests even greater activity. The new shipbuilding program of France comprises 16 battleships, three large armored cruisers and 15 smaller armored cruisers, and of these three battleships are to be laid down in 1906.

Some passed the examination and some did not. It is easy to pick the winners by the facial expression.

Some of the political bosses are already in favor of abolishing the primary nominating election law. The common people are thinking otherwise and if we are any judge the primary law is here to stay.

As a result of one doctor's careful system of advertising, eight out of town patients have been induced to move to La Grande for the winter. These eight patients, aside from taking treatment are contributing their share to the circulating medium of the town. It pays the doctor. It is newspaper and the town to advertise.

Everything points to a most prosperous year. There is every evidence that this will be a record breaking building year so far as the town of La Grande is concerned, the chances are better than ever that a railroad will connect La Grande with Cove by the time the next crop is ready to move. Many hot air lines have been constructed through and across this valley in years past, only to be killed by the wintery blast, but the above mentioned road will be down on the ground where cars and passengers can travel. Watch and see.

IT MAY BE FENTON

Who do the people want for United States senator? It is conceded that Portland will determine the choice, but what man, if this be the verdict, from Portland shall receive the honor? If a call should be sent up from the people doubtless several good men would harken to the name borne in on the wind. Jonathan Bourne, Jr., is not waiting for a call; T. B. Wilcox, it is said, doesn't expect any popular demand for his services; Judge L. R. Webster seems to be doubting. A voice is heard occasionally for W. D. Fenton. It is growing stronger lately and may become loud and clear. Fenton is factually free and able to perform the duties of the office with credit to the state. Whether proper conditions for his candidacy will yet arise remains to be seen, but an initiative step by the people might induce him to enter the race. —Pendleton Tribune.

A Creeping Death.

Blood poison creeps up toward the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at Newlin's Drug Store.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at Newlin's Drug
