WONDER

Considerable interest has been felt in Chicage concerning the case of Joseph Robert Roycraft, the remarkable childpreacher, who has lately been addressing Gospel meetings in that city, at the Moody Institute and elsewhere. Joseph was born in Chicago in 1897, and is now in his ninth year. He is small in stature for his years. His mother says of him:

"He could read the Bible on or before his third birthday. Since he was two and a half years old, he has never m ssed one day without inviting more than one person, either by tract or personal appeal plete for housekeeping. For particulars to receive the Lord Jesus Christ as their Saviour.

"In June, 1900, he declared that God called him to preach. On that morning. after family worship, he climbed up on a chair and said. Jesus has called me to preach His Word, and repeated Heb. 13: 8. Jesus Christ, the same yesterday and today and forever," and other scripture verses, prayed, sang and held what he good as new and a sewing machine called a regular service. He spoke so will be sold cheap and on installments. earnestly and with such power. his parents could only weep their gratitude as they recognized that God had truly spoken to him and through his baby lips to tnum. And since that day he has never gone to bed or would go to sleep at night without speaking or 'preaching' the Word of God somewhere, either indoors or in the open air.

"The Child Preacher reaches many persons and has many opportunities and privileges of giving the Gospel not usually given to older persons. He is called upon to speak in the homes, and has more inquiries about the Bible and the way of life from Jews and Roman Catholics than any other class of people. He is allowed to give out tracts regularly and speak to people in the waiting-rooms of several railroad depots; also on railroad and street cars, e.c.

"He has read the entire New Testament on his knees, and the greater part of the Old Testament several times. Joseph likes to romp and play like any child of his age. But he does love and delight to read his Bible, 'talk to God' and 'preach' above all else. The greatest desire and oy of his life is that Jesus will soon come. Elder J. M. Hitchcock, of the Moody In stitute, Chicago, writes of Joseph as fol-

"I saw and heard him with Dr. Siddall an old Oberline schoolmate. We were like scores of others, attracted through curiosity. We found nothing sensational or spectacular about the service. During the entire evening Joseph did not say a foolish or silly thing. To say that this child is a great preacher, or promptly said, yes. that he is specially gifted, would be mispositive in any position he takes. He mentals of the Christian faith, and to be indued with a passion for souts. He makes no efforts to imitate the evangelist. TO THE REPUBLICAN VOTERS OF UNION COUNTY

I hereby announce myself as Candidate for the Republican nomnation for County Judge, subject to the primary nominating election to be held April 20th.

J. C. HENRY.

THE 1905 JOKE

The joke which has been going about he country ever since 1906 came in has finally been exploded, so to speak, except possibly in the remote regions of the United States. It was to ask everybody if they had seen a 1905 silver dollar, and to offer a premium of \$500 for it, giving the impression that it was very rare. That puts lots of folks on the "qui vive." There was quite an influx of new subsidlary coin, all bright and shining, with last year's date, soon after New Year's day, and naturally the unsuspecting, because uninformed, were eagerly scanning their "pile" for the 'dollar of our daddles' brought up to date. It turns out that no silver dollars were coined last year. That's where the joke lay. Its origin is credited to a New York sub-treasury official.

MILK TALK NO. 1.

CHEAP MILK OR MILK CHEAP, WHICH?

Are you buying your milk cheap or are you getting cheap milk? That

is the question which every con-sumer should consider before buying. There are five properties contained in milk. viz; ash, or bone material, caseine or curd, butterfat, sugar, and water, in proportion of 5 of 1% ash 5.5% caseine. 4% butterfat, 5% sugar, 87% water. Now there are 15% solids and 87% water in a 4% milk, that is in milk containing 4% butterfat. This ratio holds good wheather of a high or low test, i.e. if you have a milk testing 5 sthe other. solids will be increased in propor-portion if a 3 % they will decrease New the solids are in like manner. what is, or what should be consid ered in buying milk. as the water can be had for the pumping. Now let us consider for a moment before we buy wheather we are paying a high or low price for these solids. A 3 milk contains 9.75 solids and 90.25 water, a 6 milk soilds and 40.25 water a 5% milk contains 16.25% soilds and 85.75% water. Now if a 5% milk is worth \$1.50 per quart per month what should a 5% sull for? Let's see, if we pay \$1.50 for milk containing 9.75% soilds at the same price milk containing 16.25% soilds should sell for \$2.50, or you can to every three quarts of 5% milk add two quarts of water. milk add two quarts of water, making 5 quarts of 5% milk, i. e. three quarts of 5% milk is equal to five quarts of 5% milk, at the present price 5 quarts of 5% milk (d \$1.50-97.50; three quarts of (a \$1.50-\$2.50, three quarts of 5% mik (a \$2.00-\$6.00, i.e. you are getting the same amount of solids for \$6.00 in a 5% milk that you get in a 5% milk for \$7.50.
