SOCIETY

DUPES-HENSON

Mr. John Henry Dupes, a popular engineer of the O. R. & N., and Miss Alice Mabel Henson, one of La Grande's efficient teachers, were married yesterday evening at their pretty new home on Washington Avenue. The groom, in conventional black, and the charming bride in a dainty creation of white silk mull, supported by Mr. J. Allen as groomsman, and Mrs. J. Allen, the bride's sister, as matron of honor, made a picture of happiness long to be remembered by the loving relatives and friends present to witness the impressive ceremony performed by Rev. E. B. Hays of the Presbyterian church. Mr. and Mrs. Dupes were the recipients of many elegant presents. The Misses Gertrude Mitchell, Allie Stephens, Bess Goodnough and Emma Hughes assisted in serving refreshments.

SEATS GOING

Up to noon today the box sheet for Handford, who appears here tomorrow evening, there were only six \$1.50 and seven \$1.00 seats left. The consolidated system of schools for the rural districts of Indiana is an assured success. Reports from eighty-eight counties, where the system is in practical operation, place the number of schools at 275, with an attendance of nearly 8,000 country pupils. The children are carried to and from school in wagons provided by the school authorities.

TRUTHFUL EDITOR

Another newspaper, the Canby Tribune has been launched in Clackamas county. It does not claim its origin is the result of a "long felt want," but it is there to fight the people's battles. One declaration in particular is worthy of notice: "We are personally acquainted with all the candidates for state and county office and will tell the truth about them before our readers go to the polls." The Tribune's attention is called to the fact that those who tell the whole truth most always are under oath. Geo. G. Dixon is the editor.—Eugene Register.

It is while you are patiently toiling at the little tasks of life that the meaning and shape of the great whole of life dawn upon you. It is while you are resisting little temptations that you are growing stronger.—Phillips Brooks.

More and more men are finding out the intrinsic value of a small piece of land intensively cultivated as an aid to the support of a family. It is really surprising what a little piece of land can be made to produce under an intelligent cultivation.—Register, Des Moines, Iowa.
