Sewerage for 1906.

What a difference it would make in this valley if the tract known as the McConnell land could be made to produce beets profitably. It would mean the disbursement of thousands of dollars and would populate several thousands of acres.

It is time that steps be taken towards a proper sewerage. 1906 should see La Grande seweraged. It will cost no more this year than next and the sooner the better. Some advocate paved streets, but the next move should be for a sewerage.

COUNTY POLITICS

It would be well if the voters of Union county would make a close study of the present laws that control county business and find out if these laws cannot be changed so that the forty odd thousand dollars annually expended to carry on this county cannot be applied to render more benefit to the people.

In 1903 the county, circuit and justice of the peace courts cost Union county \$7836.80 not counting the salary of the circuit judge.

The sheriff's office cost \$4,599.96. The total expense of Union county that year was \$42,090.58. The expenses for 1903, are given because they are the last official report in detail that we have.

CHINA BOYCOTT

From the most reliable sources available it seems that the Chinese are determined to quit trading with the Americans. This from a commercial view point means much to the people of Oregon but valuable as the trade now is to us with China, and great as we have dreamed it will be in the future it is doubtful if we can afford to concede to the demand of the Chinamen and open our ports to the unrestricted inflow of Chinese laborers if that is their real object.

The Chinamen deny that this is their real object, but that all that they ask is that our people treat their people who came here under existing laws with the same degree of fairness that we treat immigrants from other countries. On the issue thus raised the Chinese have the best of the argument.

REPORT PROGRESS

The Central Railway people are not saying much, but are industriously "sawing wood." The stakes are being made for the survey, and the O. R. & N. connection at Union is reported by President Cleaver to have been agreed upon. This all looks favorable.—Union Republican.

EVERYWHERE

In Elgin, as everywhere, there are a few who have no confidence in the future of the town and among the few are men engaged in business. Of those who hold this view we would ask, Did you ever know of a man engaged in business of whatsoever kind, that made a success unless he had confidence in his work and

in the town in which he resided? No you never did and you never will. If you want to make a failure for yourself and be a detriment to your town, continue your knocking and calamity howling and you will be forced to close your place of business and seek pastures new before you are aware of it. There are no reasons for any man to hold these views in Elgin, whatever, for no town in the state of Oregon has a brighter future than ours. Learn to have confidence in your business and in your town and you will have much easier sailing. If you cannot do this the best thing you can do is to get where you can. This class of individuals are of no good to themselves or the town in which they reside.—Elgin Recorder.

A MODERN MIRACLE

"Truly miraculous seemed the recovery of Mrs. Mollie Holt of this place," writes J. O. R. Hooper, Woodford, Tenn., "she was so-wasted by coughing up pus from her lungs. Doctors declared her end so near that her family had watched by her bed-side forty-eight hours; when, at my urgent request Dr. King's New Discovery was given her, and with the astonishing result that improvement began, and continued until she finally completely recovered, and is a healthy woman today." 50¢ and \$1.00 at NEWLIN DRUG CO. UNSEEN DANGER IS ON OUR TRACK

From the time of our birth till we lie down for the last time.

The best defense from the dangers of disease is vigor of body and activity of the natural functions.

The kind of assistance is important. It must not be stimulation for that gives but temporary effect, and the reaction is more than depressing. Take a tonic—one that will re-establish normal digestion and assimilation and prove a reconstructive rather than a promoter of waste. This will give nature a fair chance to put in motion normal work of repair and tissue building.

Such a tonic was given in Nature's Laboratory, hidden in the ground and brought above forty years ago by Dr. R. V. Pierce, who has made the treatment of lingering diseases his life-long study and care.

He uses glyceric extracts instead of alcoholic ones, exactly proportioned and combined by processes of his own invention, first used in his private practice and now given out freely to the world in his "Golden Medical Discovery," which is composed of Golden Seal root, Queen's root, Stone root, Black Cherry bark, Blood-root and Mandrake root.

Mrs. A. T. Jones, of 208 Hayes Street, San Francisco, Cal., writes: "As a child I was delicate, and great care was taken of me because some of my relatives had died of consumption, although my father and mother were healthy. I grew up with only the ordinary diseases of all children, but about two years ago I contracted a severe cold, which would not yield to such home-treatment as was handy. Doctors were tried, but after three months of this treatment I was only worse. Then I was advised to try Dr. Pierce's Golden Medical Discovery, and am glad to say that three bottles not only cured me of the cold and cough, but made me feel better than I ever had before. I will always have a bottle of this medicine in the house."

"These thin, sugar-coated anti-tuberculous granules regulate and invigorate stomach, liver and bowels. Do not break the 'pill habit' but cure constipation. One or two each day for a few days will regulate or cure for an active cathartic. Once tried always in favor. Put up in vials; always fresh and reliable."
