Have you registered yet? Time is flying.

This is an ideal stockmen's winter. No loss from feeding.

The horse market is more promising in this section than for many years.

Why are there not more strawberries grown in this county? We grow as many to the acre as anywhere. The crop is sure and comes in late in season. The prices are always remunerative. Again this kind of a crop provides labor, hence a large payroll.

The annual mid-winter number of the Evening Capital News of Boise, Idaho, is at hand. From the front page, which is adorned with a large engraving of Shoshone Falls, through the book, it is characterized by fine press work and careful study of the conditions in Snake River valley. Special stress is given to sugar beet culture and to the irrigation projects that are transforming the great American desert into habitable farms.

There are several things that will possibly bloom along with the buttercups this spring that will add much to the value of Union county. Railroads will be built this year and as there is more thought than heretofore being given along irrigation lines, it is quite probable that something will be done. Both should go hand in hand. We need more people and transportation and irrigation could bring this about quicker than anything.

GOOD ROADS

The average Hoosier is not much given to brag about his blood or to find fault with his neighbors but when it comes to persistent and intelligent labor he takes high rank. The pioneers in Indiana had to contend with the softest and muddiest roads to be found any where in the United States. There are persons yet alive in that state who well remember seeing passengers on the United States stage coaches walking behind the stage and carrying a fence rail on their shoulder to be ready to pry the coach wheels out of the mud holes and it was a common thing for farmers on the roadside to keep a yoke of oxen or span of horses ready on call to help mire down teams.

A recent article written by J. S. Graff describes two horse teams drawing saw-logs with enough logs on each wagon to make 2,500 feet of sawed hard wood lumber a distance of from 12 to 15 miles. These logs are hauled over country roads and the loggers do not have to wait for the roads to freeze or be covered with snow. The Hoosiers have made their roads so good that heavy oads can be drawn over them at all seasons of the year.

COAL MINERS STRIKE

The effort of the coal miners and their employers to come to an agreement at their recent conference, renders it almost certain that the first day of coming April will see the greatest labor strike in the United States that has ever occurred. It will extend to all the coal mines of any consequence in the Northern and Western states.

The digging of coal is one of the biggest businesses carried on in the United States. The annual output of our coal mines in

1902 was 269,361,050 tons, and allowing the increase since then to have been at the same rate it was from 1900 to 1902, it may now be placed at 317,000,000 tons. This makes a per capita of over 30 tons to each person in the United States.

The bulk of this coal is used in creating motive power to run machinery, railroads and ships and cutting off the coal supply will seriously handicap all the manufacturies, railroads and steamboats in the country, and may, and most probably will, result in the throwing out of employment many millions of wage earners and curtail the purchase of raw material by the factories. The coal miners claim they now have a fund of \$2,000,000 to enable them to fight to a finish but this is not a dollar ahead for the laborers that will be thrown out of employment.

If the strike assumes the proportion, it now bids fair to, we will feel it seriously in Union county by reason of the diminished market for our fruits, wool and other of our produce we now sell to the east.

New York has 500,000 telephones in operation. This is more than the entire country had in 1896. The number of telephones in use exceed 2,200,000 or one to every thirty-four inhabitants.

A MODERN MIRACLE

"Truly miraculous seemed the recovery of Mrs. Mollie Holt of this place," writes J. O. R. Hooper, Woodford, Tenn., "she was so wasted by coughing up pus from her lungs. Doctors declared her end so near that her family had watched by her bed-side forty-eight hours; when, at my urgent request Dr. King's New Discovery was given her, and with the astonishing result that improvement began, and continued until she finally completely recovered, and is a healthy woman today." 50c and \$1.00 at NEWLIN DRUG CO. are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

MRS. LORING NICHOLS, Penn Yan, N. Y.
I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.
