AMUSEMENTS

PLUMSTEAD TONIGHT

For an all-round evening of pleasure you should hear Elsworth Plumstead. He gives impersonations, character sketches, fun, pathos, in fact plays upon all the strings of the human heart. He also sings. Hear him at the Central church at 8:30 this evening. Tickets at Selder's store. Number 3 of popular course.

GLEE CLUB

The U. of O. Glee Club Concert last evening was thronged and as usual the affair was a treat. The plan of decoration could not be called elaborate but it was suggestive of school spirit. There were scores of college and class pennants and a few cozy corners arranged attractively. The entire program was beautifully rendered. Special mention must be given Mr. Rountree, whose impersonations were highly appreciated and none hesitates to say he has certainly been properly titled the "funny man." The selections by the Mandolin Club were exceptionally fine and all members share honors with Mr. Bellman, the proficient leader. Unbounded praise was given Mr. Glen who rendered Bullards "Cavalier Song" most effectively.

The Glee Club boys have made a host of friends wherever they have gone and through the kindness of Dr. and Mrs. F. E. Moore, local enthusiasts had the pleasure of meeting them at a reception in Dr. Moore's elegant home. The large crowd, nearly 90 guests, was admirably handled and the success of this part of the evening is due to the arduous work of Mrs. Moore, who is ever ready to arrange pleasant occasions for her friends.

PAYING THE WAY

(Script News Association)
Washington, Feb. 15.—Longworth got the marriage license this afternoon.

FOR NEW TOWNSITES

That a townsite may be located upon the East Umatilla irrigation project is one of the possibilities of the future.

A movement is on foot in Washington to provide for townsite withdrawals on all government irrigation projects, for accommodation of settlers in the newly opened districts.

Senator Ankeny's bill, which provides for the withdrawal of lands for townsite purposes, has already received a favorable report by the senate committee on irrigation and will probably become a law in the near future.

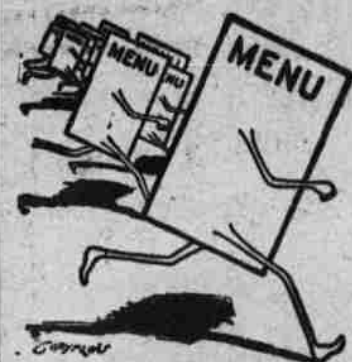

The purpose of the bill is to provide for the establishment of townsites in connection with irrigation projects under the reclamation act, and also to authorize the secretary of the interior to furnish water for such towns and to dispose of the lands at public sale, the money so obtained to be ultimately covered into the reclamation fund.
