

Aurelia Stock

Reports from the mines during January has warranted a raise, consequently stock has gone up to 71 cents, and this is not all, it will keep going up as long as the property gets better, as it is you should buy before another raise in price, or you will miss a good investment. You should consider this as being a home enterprise and help the matter along, thereby helping yourself.

MILK TALK No. 2.

CLEANLINESS

As milk is the natural food for the young, containing within itself all the requirements of the body, and as any adulteration is injurious to the system, (either from absorption or otherwise) therefore the health of the consumer, and especially the young, depend to a great extent upon those who handle the milk. And as there are so many ways in handling the cow as well as the milk after being drawn from the cow. Every consumer should visit the place from whence he gets his milk (no matter if it is surrounded by a high board fence) and see how the cow and the milk are handled before using it as a food for the baby.

LA GRANDE SCHOOL OF MUSIC

PROF. DAY, PRINCIPAL.
MRS. DAY, ASSISTANT.

This is one of the best musical institutions in the state, and that people in this city and valley are beginning to discover the advantage of this school. The system is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments; No. 1 is for beginners from 5 years or more and are taught the first three grades. Pupils come one hour each day. This is no kindergarten system but far superior. In No. 2 the grades are from 2 to 5. Here they graduate. Pupils take one or two lessons a week as they desire. No scholars will be permitted to remain in this school who do not study.
Opposite the Foley House over the candy store. Phone. 473.

TRIBUTE TO OREGON BY REV. ANNA SHAW

President of the National American Woman Suffrage Association, Delivered in Boston.

While our field of effort is bound only by our National Government, the immediate battlefield is on the Pacific Coast and in the state of Oregon. Here rests the center of our hopes during the coming year, and we trust that when we meet in our next National Convention another star will be added to the four already on the field of blue and that freedom to all the people will have been proclaimed in one more state of this land of promise.

It is to the Initiative and Referendum law that we are indebted for the opportunity to bring our question before the voters of Oregon without the necessity of legislative enactment. For the past ten years there has been a growing determination on the part of the political machinery of the country to prevent the submission of constitutional amendments for woman suffrage to the voters of the various states, and year after year in state after state, they have played shuttlecock and battledore with our measure, passing it in one house to defeat it in another, in a hypocritical desire to appear favorable and inspire us with hope, they might retain our friendship and the small amount of political influence they think we already possess. The machine politicians well know that the honest American voter is right at heart, and that he cannot be trusted to vote down justice and the fundamental principles of our republic when untrammelled by partisan bigotry and political domination. Our hope lies in the power of the people to compel action, and the best method yet employed is that secured by the state of Oregon through the Initiative and Referendum Law.

I trust every effort will be put forth by our various state associations to secure the passage of this beneficent measure to the end that the people and not any body or class of the people may determine what the laws shall be. The announcement on the 30th of November by the national manager of the Oregon campaign that the required number of signatures had been secured made our Thanksgiving day complete. The latter announcements that the petition had been accepted by the secretary of state, and the proclamation of the governor had been issued on December 28th submitting our bill to be acted upon the voters on June 4th were sufficient causes for rejoicing and gratitude as we listened to the joyful ringing of the bells that told of the birth of the New Year, a new year let us hope to be fraught with victory for our cause.

The work of carrying on the campaign by the national association in co-operation with the state is entrusted to Miss Laura Gregg, one of the most painstaking and conscientious workers in our Association. Miss Laura Clay [whose presence we greatly miss at this convention] and Dr. Jaffrey are the national officers who have been in the state from the beginning of the campaign. Miss Clay, recognizing the need of service, did not even return to her home after the last national convention. Mrs. Clara Colby of Washington Mrs. Wadsworth of Oklahoma, Miss Mary Chase of New Hampshire, Miss Laughlin of Maine, Mrs. De Voe of Illinois and Mrs. Boyer of Pennsylvania, are all at the post of duty; and in addition to the national corps, there is a splendid company of Oregon women, aiding and encouraging by every means in their power the work and the workers.

The hearty response which so many of the states have given to the call for financial aid in inspiring. Even these

states which from internal conditions and lack of material wealth could be least expected to respond have answered "We will do our part." And they are doing it bravely.

In a great republic one might well ask, Why is all this labor and sacrifice necessary to persuade men to be true to the principles which they believe, loyal to what they know to be just, and honorable enough to grant to others the same privileges and opportunities which they accept for themselves? From the beginning of our national life, when men were ready to die for the declarations that "all men are created equal," that "government derive their just powers from the consent of the governed," Men have been repeating and applauding the sentiments, and at the same time have been devising all possible excuses for evading them in the actual life of the government.

Inconsistency has marked every step of our development we are gradually progressing through successive stages of evolution toward the plane where our practice and our theories will harmonize, and we will erect for the first time in history of governments, "A republic of the people, for the people, and by the people." Let us turn our faces with enthusiasm toward Oregon. Let it be the star of hope which shall inspire us during the new year, strong in the conviction that the gigantic forests, the rugged mountains and the mighty rivers of that great Northwest have developed in its men such a love of liberty they will longer refuse to enjoy it themselves unless shared by Oregon's women.

Our delivery service is for the benefit of all. Don't hesitate to use it.

BAD BLOOD WEAKENS THE SYSTEM AND INVITES DISEASE

Every part of the body is dependent on the blood for nourishment and strength, and when from any cause this vital stream of life becomes impoverished or run-down, it invites disease to enter. No one can be well when the blood is impure; they lack the energy that is natural with health, the complexion becomes pale and sallow, the vital energies are at a low ebb, and they suffer from a general broken-down condition of health. The system is weakened and unable to resist the diseases and disorders that are constantly assailing it. The Liver and Kidneys, failing to receive the proper stimulation and nourishment from the blood, grow inactive and dull, and the waste matters and bodily impurities that should pass off through these channels of nature are left in the system to produce Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases or some other blood disorder. When the blood is in this weakened and diseased condition it should be treated with a remedy that is not only thorough, but gentle in its action. S. S. S., a purely vegetable remedy, made of roots, herbs and barks, is just what is needed. It not only cleanses the blood of all impurities and poisons, and enriches and strengthens it, but gently builds up the entire system by its tonic effect. S. S. S. reinvigorates every member of the body, gives tone and vigor to the blood, and as it goes to the different parts, carries robust health and strength. S. S. S. acts more promptly and gives better results than any other medicine. It cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases and all other blood disorders, and cures them permanently. Our Medical Department will be glad to give advice without charge to all suffering with blood or skin diseases. Address
