

Aurelia Stock

Reports from the mines during January has warranted a raise, consequently stock has gone up to 7 1/2 cents, and this is not all, it will keep going up as long as the property gets better, as it is you should buy before another raise in price, or you will miss a good investment. You should consider this as being a home enterprise and help the matter along, [thereby helping yourself.

MILK TALK No. 2:

CLEANLINESS

As milk is the natural food for the young, containing within itself all the requirements of the body, and as any adulteration is injurious to the system, (either from absorption or otherwise) therefore the health of the consumer, and especially the young, depend to a great extent upon those who handle the milk. And as there are so many ways in handling the cow as well as the milk after being drawn from the cow. Every consumer should visit the place from whence he gets his milk (no matter if it is surrounded by a high board fence) and see how the cow and the milk are handled before using it as a food for the baby.

AMUSEMENTS

THE WILLIAM H. WEST BIG JUBILEE MINSTRELS

Major Smith and his famous devil stick have demonstrated quite conclusively that a minstrel audience has a keen appreciation of originality and novelty, and it is therefore not in the least surprising to note with what pleasure this amusing act has been acclaimed all along the line of the William H. West Big Jubilee Minstrel's travels. Major Smith holds an important place on the fine and diversified bill to be presented at Steward's opera house next Saturday, March 10, and his clever efforts are strongly fortified from front and rear by other acts of refreshing note and by such a splendid volume of vocal and instrumental features as have long been an exclusive claim to the high art minstrel music associated with the West aggregation under the direction of Manager Ricca-by.

"HUMAN HEARTS"

The forthcoming annual visit of "Human Hearts" will no doubt be warmly welcomed by the lovers of all that is good in melodrama. "Human Hearts" is beyond question, one of the strongest and most interesting plays that has ever visited our city. The author belongs to that all too small group of dramatists, who understand how to reach the heart and hold the attention of the audience. In "Human Hearts", he has constructed a play that will never grow old. The principle theme of the play is Hope, and has not some author written "Hope springs eternal in the human breast." Hope, the one bright ray of sunshine, that breaks through and illumines the clouds of despair that almost overwhelms poor Tom Logan. The hope of a good, pure woman's love; the hope of brighter days; the hope of an honest man unjustly accused of crime, that the criminal will be detected and his good name restored. The author has handled this subject with the consummate skill and ease that shows true dramatic instinct. The love interest is all as absorbing. The comedy element is introduced in such a way, that it becomes relevant to the story, and the climaxes are worked out naturally and logically. "Human Hearts" will be seen at Steward's opera house, Tuesday, March 6.

PROMISED TO RETURN

(Scripps News Association)

New York, March 5.—It developed today that before Hyde sailed for Europe he agreed with Jerome that he would return when wanted. The same agreement is said to have been made with McGurdy, but this statement is flatly denied here today.

Stuyvesant Fish, it is stated upon good authority, plans to become president of the Mutual. The officials say that Fish believes that an insurance man should head the company, and every effort will be made to find the right man.

FOR THE PHILIPPINES

(Scripps News Association)

San Francisco, March 5.—The transport Logan sailed at noon today for the Philippines. She carried the Eighth Infantry and two troops of the Third cavalry. Among the officers were Brigadier General, J. M. Lee and Captain Taggart.

GOMPERS CALL MEETING

(Scripps News Association)

Washington, D. C. March 5.—Gompers today called a meeting of the executive council of the American Federation of labor to be held in this city, March 19. It is believed that the meeting is called to consider the coal situation.

MOST DISEASES ARE OF SPINAL ORIGIN

ANATOMY UPHOLDS OSTEOPATHY

It is impossible to study the anatomy of the spinal column without marveling that it so seldom gets out of order. The wonder is that it should be able to do its work at all. The spinal column is made up of twenty-four separate bony segments, the vertebrae, which join the head above and the pelvis below. Each vertebra is separated from and at the same time joined to its fellow above and below by dense buffers of yielding cartilage; over bone and cartilage compact strong straps of ligament pass and interlace with mathematical precision, binding all firmly together.

This marvelous pillar, when braced on every side by guys of muscle and tendon, becomes the incomparably strong, slender graceful, agile spinal column—strong enough to support not alone the body, but all the burdens men carry; scarcely thicker than a broomstick, yet as supple as a carriage whip; capable not only of bending in every direction, but also of torsion and—marvel of marvels!—self-restorative to its correct axis after every conceivable gyration, so long only as its mechanism is in relatively correct position and adjustment.

Fancy a machine of steel and rubber, capable of such complex motion, such wondrous strength, yet having such an elastic power to regain its normal form and adjustment. The human spinal column stands as the most matchless piece of workmanship in all mechanics!

BAKER TRADES ASSEMBLY

At a special meeting of the Baker City Trades and Labor assembly last evening the following resolutions were adopted:

Resolved, That we are strongly opposed to the slanderous and personal attack on the character of one of our honored citizens, John L. Rand, published in the Portland Labor Press, believing them to be slanderous and uncalled for and tending to mislead the people of this district for the benefit of political candidates in other parts of the state.

Resolved, That we are strongly opposed to the slanders and personal and uncalled for attack on the good citizens of any district. Labor unions are honorable bodies, represented by honorable people, with the firm intention of dealing with people honorably and demanding the same in return.

Resolved, That personal attacks have been and are a detriment to the good name of organized labor. We are aware that there are no saints among us and men must all stand the test of the ballot box on the political record they have made and not slander any class of people, to the detriment of organized labor.

Resolved, That the Portland Labor Press be requested to cease the slanderous publications against all candidates in this state and oppose them or support them on their past political records and maintain the good name of organized labor and the principles we have been fighting for so many years, honor, justice and good government.—Baker City Democrat, March 1.

CLARK WINS VICTORY

(Scripps News Association)

Washington, D. C. March 5.—Senator Clark of Montana won a complete victory in the supreme court in the case brought by the government demanding the cancellation of eighty patents for timber land on the ground that the patentees did not purchase the land in good faith and for their own exclusive use, but for speculation, and under an agreement which insured a benefit to Clark. The Supreme Court affirmed the decision of the lower court which held that Clark had no actual knowledge of the fraud.

TROOPS WITHDRAWN

THE GAMBLE CONCERT

Great interest is manifest in this great musical event, and it looks as though Central Church would be packed this evening. Miss Lyne heard them last year in Kansas City where seats sold at \$1.50 and people were delighted.

Evangelist Handsaker has heard Mr. Gamble, and says he considers himself fortunate in being here tonight.

Press notices from Portland and Lewiston tell us of the party in the west, while

the eastern papers abound in praise. Our music lovers have a treat at hand and those who miss this number of the course will have reason for regret.

SEES A CHANCE

(Scripps News Association)

Chicago, March 5.—The Daily News correspondent at St. Petersburg quotes an official as follows: "Rockefeller gave two hundred million dollars to a Witt in preventing the financial crash. He does this in return for railroad concessions from Taskend to Tomak at from Tahita to Polamoshna and a grant of land on both sides of the road. The prospective loans in money is also to be paid back in installments to be used for the construction of the road. The Witt hesitates to sanction the offered plan until the Doma assemblies."

MUNICIPAL ELECTION

(Scripps News Association)

Vallejo, Cal. March 5.—There is great interest in the municipal election today. The biggest vote ever polled is anticipated. There are no disturbances by lots of work and keen opposition. The navy yard employees, numbering eighteen hundred are coming off in squads to vote strong for Roney, Madigan, Democrat, claims election by a hundred.

THE BULLS AND BEARS

(Scripps News Association)

New York Mar. 5.—The continued pressure of the stock market forced a considerable liquidation of the Anaconda Amalgamated. Some inside interest is apparently willing to see prices go lower.
