Among other things that last night's storm nipped in the bud was the desire to make garden.

The lion broke into March last night and has the lamb backed up into a corner and bleating pitifully.

The city election is over and as soon as everybody tells everybody else how it happened, the events of the day will be forgotten.

The rebonding question carried, and the city will thereby make a saving of something like five hundred dollars per year an amount sufficient to pay for a few more street lights.

Mr. Rockefeller is said to read the newspapers very carefully. Then he probably knows where he is every day and must enjoy the tour of the world the papers are giving him.

This little snow flurry and cold snap is exactly what this valley needs. Snow on our mountains and valley insures bountiful crops and the cold weather holds the fruit back. Plenty of moisture and a reasonably late season are necessary to the prosperity of Union county.

In this issue appears an article from the pen of Mr. Shappat, one of Cove's leading fruit men calling the attention of the county court to the necessity of good roads. It should be read by every voter in the county. It contains much food for reflection.

In the coming primary election it should be remembered that no voter who has not already registered as a voter of the county will be allowed to participate in the election. The swearing in of votes on that day is prohibited. Consequently all who desire to take part in the primaries should register before the books close.

### THE MALHEUR LESSON

The definite postponement of the great Malheur irrigation project, because of the greedy attitude of certain men whose land holdings were necessary to the carrying out of the work, will, it is hoped, teach a needed lesson to all men of that class. These individuals thought that because of the eagerness of the Reclamation Service to develop the project—the carrying out of which would make valuable to settlers a vast area of arid area—they could "hold up" the government and compel the payment of fancy prices for holdings which had originally cost them practically

nothing. Finding them obdurate, Secretary Hitchcock transferred the money intended for the Malheur works to other projects where the greed of the first-comers did not block the way. Served the brigands right!

### IRRIGATION IN ITALY

In Northern Italy the construction of canals and aqueducts for irrigation is being pushed on a large scale, and the irrigated areas are constantly expanding. Yet Italy has no greater need of irrigation than any state in the American Union. Just as ancient estates in Lombardy, Sardinia, etc., are being doubled in value, the crops doubled and tripled, and employment is there being given to twice as many people as formerly, so might similar advances be brought about by irrigation in New York, Ohio, Kentucky or Minnesota.

### A MODERN MIRACLE

"Truly miraculous seemed the recovery of Mrs. Mollie Holt of this place," writes J. O. R. Hooper, Woodford, Tenn., "she was so wasted by coughing up pus from her lungs. Doctors declared her end so near that her family had watched by her bed-side forty-eight hours; when, at my urgent request Dr. King's New Discovery was given her, and with the astonishing result that improvement began, and continued until she finally completely recovered, and is a healthy woman today." 50c and \$1.00 at NEWLIN DRUG CO.
