You will surely make a mistake if you do not take some stock in the mines of the Aurelia Mining company, before another raise.

THE PRICE of stock will be advanced from $\frac{7}{8}$ to 10 on April 1. From last reports the mine is producing ore every day, and will ship ore this summer. Investigate and see.

CLEANLINESS

As milk is the natural food for the young, containing within itself all the requirements of the body, and as any adulteration is injurious to the system, (either from absorption or otherwise) therefore the health of the consumer, and especially the young, depend to a great extent upon those who handle the milk. And as there are so many ways in handling the cow as well as the milk after being drawn from the cow. Every consumer should visit the place from whence he gets his milk (no matter if it is surrounded by a high board fence) and see how the cow and the milk are handled before using it as a food for the baby.

FROM NATIONAL CAPITOL

Roosevelt emphasized that he did so to enable the Senator to get together the community sentiment. If that portion of the state is opposed to the reserve, the inference follows that the withdrawal will not be made permanent. In doing this, the President has deferred to local sentiment more than his subordinates in administrative circles, as the Forestry Bureau is determined to make this withdrawal permanent, with few eliminations. The several communications sent to Senator Fulton already indicated to him that a majority of the people directly affected were against the reserve. As there had not been full expression of opinions, all the Senator could say to the President in this regard was that he believed the people opposed. Developments within the next few weeks will prove whether there is a majority sentiment against or for the proposition.

Washington, March 14.—Each session of Congress gives rise to renewed reports of a new mansion for the nation's chief executive. This is no exception, although the discussion indulged in this year is quite vague. Since the nation began giving to some branches of the government family beautiful homes, the consistency of improving upon the ancient and rather shapeless marble pile known as the White House, grows more apparent. There is one sight which every Washington heart leans toward for the new structure, this being in the Northwest section of the city, where there is a slightly little knoll of about the required acreage for commodious executive buildings. This sight has been unapproachable in the past, the owner placing a prohibitory price upon it, but hope burns strong here that the time will come when the new White House, which is expected to be a most elegant palace, will surmount this eminence. It is in the heart of the rapidly developing fashionable quarter of the city, and while not very close to other government buildings, would at the present day be very fit as the site for the President's home.

ATTORNEY AND COURT DISAGREE

(Scripps News Association)
Chicago, Mar. 15.—Attorney General Moody and Judge Humphrey disagreed in the "Packers" case today regarding the immunity of the packers now under indictment. Morrison made a long argument which was supported by Moody. The court appeared to intimate that the evidence might show that the information secured under the implied promise of immunity, was used to secure indictments. Moody contended that that was a question for the jury.

HADLEY IS NOW ON GROUND

(Scripps News Association)
New York, March 15.—The hearing in the case of the State of Missouri against the Standard Oil company will be resumed before Commissioner Sanborn today. Attorney General Hadley, of Missouri, arrived here last night and will be assisted by Mr. Henry Wollman, of New York, as counsel for the state of Missouri. It is expected that some agreement will be reached between the Attorney General and the officials of the Standard Oil company, in accordance with which H. H. Rogers, W. H. Tilford and W. M. Van Buren will appear upon the stand and answer all questions which may be put to them. It is expected that in that case the Attorney General will consent to waive the appearance upon the stand of John D. Rockefeller, who has been successively dodging the officials of the court who have been sent out to summons him to appear as a witness.

HEADACHE-HADACHE POWDERS

This subject was brought into prominence recently by the crusade by the medical doctors of Kansas City against the use of headache powders. They are cocaine products, whose results are gotten through depressing the heart's action, so as to decrease the blood to the head. This frequent depression finally results in incurable heart disease, and frequently in sudden death. Medical texts assert their inability to cure, which is abundantly confirmed by experience.

Osteopathy goes at this in the usual way, seeking the cause. This is almost invariably found in irregularity of the bones of the neck, resulting in a disturbance of the blood flow to the brain. This makes the condition delicate, ready to be overthrown by one of the many exciting influences, indigestion, female troubles, worry, etc.
The cure is evident: correct the irregularities of the neck. This is what the Osteopath does, and very rarely does he fail to get a permanent cure.

Consumption Cured.
Foley & Co., Chicago. Dans, Ind. Gentlemen:—Foley's Honey and Tar cured me of Consumption after I had suffered two years and was almost desperate. Three physicians failed to give me any relief and the last one said he could do me no good. I tried almost every medicine I heard tell of without benefit, until Foley's Honey and Tar was recommended to me. Its effect right from the start was magical. I improved steadily from the first dose and am now sound and well, and think Foley's Honey and Tar is a God-send to people with Throat and Lung Trouble. Yours very truly,
MRS. MARY AMBROSE.
