You will surely make a mistake if you do not take some stock in the mines of the Aurelia Mining company, before another raise.

THE PRICE of stock will be advanced from $7\frac{1}{2}$ to 10 on April 1. From last reports the mine is producing ore every day, and will ship ore this summer. Investigate and see.

PRESIDING ELDER'S BIG DISTRICT

Rev. J. D. Gillilan presiding elder of the La Grande district has a territory one thousand square miles larger than the state of Ohio or Indiana. He reports that on the whole, things are moving pretty well, yet some changes and shiftings are constantly occurring. Among them is the loss of D. E. Birch, from Sumpter; W. F. Chase, from Vale; H. E. Carter, from Haines; E. M. Hill, from Baker City and H. H. Mower, from La Grande.

Mr. Hill goes to Mexico City, Mexico and is replaced by Jacob Finger of Vermont. Mr. Mower goes to New York City and is exchanged for B. F. Meradith of that city, who comes to La Grande April 1st. H. E. Carter goes to Harney and leaves his place unsupplied as also are Vale and Sumpter. A sub-district convention comprising all the ministry between and including Baker City and Vale is to meet in Huntington for three days next week. A similar meeting was held in Elgin three weeks ago for the ministry north and east of Baker City.

Mr. Gillilan will be in the city tomorrow but will not spend another Sunday in La Grande before sometime in June.

AMUSEMENTS

FRAZER COMPANY IS STRONG

That the Frazer Theatre company, managed by K. J. Taylor, will be appreciated during its stay here, was shown by the attendance and applause last night, on the occasion of the company's first appearance here. Although the weather was cold, nevertheless the theatre was well filled, and that the play was liked was shown by the applause.

The bill last night was "The Black Hand," a stirring four-act melodrama. The scene is in the mountains of Kentucky, and the plot hinges around a family feud of many years' standing and an outlaw organization known as the Black Hand. The play was well presented by Mr. Taylor's company, which in its class is one of the best that has ever been seen here. There is sufficient comedy in the production to keep it from being too weighty. As Herman Hochstein, a German, D. S. Cobb is a success, while David Williams as Dick Day, whose feet and tongue both stutter, was also clever. There is not a poor member in the company.

K. J. Taylor appeared last night as Jim Hopkins, and he played the part in his usual capable manner.

This company will open a week's engagement at Steward's opera house Monday March 19.

LETTER FROM ELY

A letter just received in this city by friends of Cad Rynearson dated Ely, Nevada, the 9th, gives a most flattering account of that newly discovered region. Miss Rynearson has relatives living at Ely through whose persuasion she was induced to visit it. Mr. Walter Rynearson, her cousin, during his visit here a few months ago, has large holdings in that locality and upon his representations she started for that new El Dorado, where she arrived after several days of strenuous travel. On the way to Ely she had two days of staging which she describes as rather trying on one who is used to the comforts of our comfortable passenger coaches on the O. R. & N.

Just before starting in the stage coach for Ely, she ate of some canned meat causing her to suffer very seriously from ptomaine poisoning, and had it not been for the assistance of a Swede, who was the only passenger in the stage beside herself, it would have gone very seriously with her.

Miss Rynearson speaks in the most flattering terms of that country and says every thing is on the boom and money plentiful. She wishes to be kindly remembered to all of her friends, and when she returns will entertain them with an account of her journeyings.

NOTES FROM THE FOUNDER'S DIARY

"In the light of success the mighty obstacles of early struggles seem trifling and often ludicrous. To illustrate: When struggling at Macon, Mo., my brother's home, for a foothold for Osteopathy, a certain preacher assembled my brother's family for prayers for me and word was sent up to the Lord that I was possessed of a devil. The preacher stirred up such a hurrah that those under his influence believed I was crazy, and children gave me the road, because I said I did not believe the Lord is a whisky and opium doper; and made man in perfection with necessary powers and qualities for remedies and comfort, just as he made the birds and beasts. For such arguments I was called infidel, crank, and crazy, and the Lord was advised to kill me and save the lambs.

"On how many of our people has religion in the light of science dawned, and how many are with our benighted preacher, praying God to put down the saloon, yet are whetting the appetite of their little ones with stimulants of patent medicines and doctors?"

Cured After Physicians Said He Had Consumption.

E. H. Jones, Pastor M. E. Church, Grove, Md., writes: "About seven or eight years ago I had a very severe cold which physicians said was very near pneumonia, and which they afterwards pronounced consumption. Through a friend I was induced to try a sample of **Foley's Honey and Tar**, which gave me so much relief that I bought some of the regular size. Two or three bottles cured me of what the physicians called consumption, and I have never had any trouble with my throat or lungs since that time."

Three sizes—25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

MILK TALK No. 2.

CLEANLINESS

As milk is the natural food for the young, containing within itself all the requirements of the body, and as any adulteration is injurious to the system, (either from absorption or otherwise) therefore the health of the consumer, and especially the young, depend to a great extent upon those who handle the milk. And as there are so many ways in handling the cow as well as the milk after being drawn from the cow. Every consumer should visit the place from whence he gets his milk (no matter if it is surrounded by a high board fence) and see how the cow and the milk are handled before using it as a food for the baby.
