A BROKEN WATCH

Is sold in beyond repair by a skillful watchmaker. We have repaired some watches that looked as if it would be a waste of time to attempt it. Today they are running as well as ever they did.

Bring us Your Watch

and let us put in proper shape. No matter what's the trouble we can fix it. And we repair jewelry too. So skillfully that you wouldn't know it from new. People who know us say our charges are entirely satisfactory.

The new city council assumes its duties for the year 1906 this evening. From this time on there will be eight councilmen.

The house of representatives and the President are with the people and the senate as usual is for corporations, and the people, that is some of them wonder why socialism is growing.

While it is a fact that the high license idea is growing stronger every year in the northwest, it is also a fact that there is not another city in this state with eighteen saloons with as few police court cases as in La Grande.

Oregon today is several decades ahead of any other state in the union. This was brought about through the Initiative and Referendum, and the direct primary nominating laws. The people in this state can make and unmake such laws as they desire and can nominate just such men as they wish to become their public servants.

La Grande is going to make rapid strides this year and this means that there will be much building, but property owners must remember that raising the price on vacant town lots is not the way to build cities. The buying public know how much lots are worth. Home builders are willing to pay actual value but they will not be held up. This will be a good year to dispose of vacant residence property at reasonable prices.

The Minnesota Experiment Station is now sending out to the farmers of that state a new strain of spring wheat which promises much in increased yields in the spring-wheat section of the middle northwest. It is designated as Minnesota No. 188, and has been under test and development for 11 years, during which time it has given higher average yields than any other variety.

A cannery promoter recently visited Freewater, Ore., and endeavored to persuade the people of that place to put in a plant which would cost \$6,500. It was wisely decided by the Freewater people to investigate first, and a committee was sent to Wenatchee, Wash., and it was found that by duplicating the Wenatchee cannery a saving of \$2,270 in the cost of machinery would be effected. The committee found that the stockholders of the Wenatchee cannery are well pleased with their plant and its work. Their shipments of canned goods for the past season amounted to 59 carloads, although peaches and tomatoes were a failure.—Oregon Agriculturalist.

A Creeping Death.

Blood poison creeps up toward the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores 25c at Newlin's Drug Store.

NOTICE

Notice is hereby given that my wife, Rosalia Johnson, having left my bed and board without just provocation, that I will not be responsible for any bills she may contract from this date.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it. Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer— weaken, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

Digests What You Eat

Small bottle holds 1/2 ounce as much as the large, 16 cent size. Prepared at the Laboratory of E. G. DeWitt & Co., Chicago, U.S.A.
