RUN-AWAY HICCOUGHS STOPPED

Osteopathy, the sience of healing with out drugs, has saved the Rev. Dr. S. W. Gehrett, pastor of the First Methodist Episcopal Church, of Norristown, Pa., and a former presiding elder of the North Philadelphia District in the Methodist Episcopal Church, from death by incessant hiccoughing. said The Philadelphia North American, December 9th.

The editor asked Dr. Eroh for a fuller for a fvlier statement about this case.

"I was called in on the case on the ninth day, and found that both the specialists from Phliadelphia and the doctor in charge had diagnosed the case wrong, according to our osthopathic view point," wrote Dr. Eroh. "They were under the impression the hiccoughs were reflex, caused by some disorder of the stomach, and hod the patient on liquid diet with cold water to drink,

"As soon as an examination could be made I found the osteopathic cause with little oa no trouble. Treatment relieved the irritation to the phrenic nerve and I changed the diet from a livuid to a solid food with hot tea to drink instead of cold water, the patient to be fed every two hours. My idea was to keep a full ctomach for twedty four hours as hiccoughs are less frequent on a full stomach and the hot tea was a good stimulant instead of the cold water, which acted as irr.tant.

Yet the hiccoughs did not stop until all irritation was remaved from the phrenic nerve, which is just what every osteopathic diagnostician would expect. It took Osteopathy one huur and a half to stop a ten-day-case of hiccoughs and thereby break another 'world's record" so far as drug records are concerned. although perhaps scarcely establishing a new record for itself since it has conquered many another case of chronic hiccoughs after other schools have admitted recovery to be hopeless."
