You will surely make a mistake if you do not take some stock in the mines of the Aurelia Mining company, before another raise.

**THE PRICE** of stock will be advanced from 7 1/2 to 10 on April 1. From last reports the mine is producing ore every day, and will ship ore this summer. Investigate and see.

MILK TALK No. 2.

### CLEANLINESS

As milk is the natural food for the young, containing within itself all the requirements of the body, and as any adulteration is injurious to the system, (either from absorption or otherwise) therefore the health of the consumer, and especially, the young, depend to a great extent upon those who handle the milk. And as there are so many ways in handling the cow as well as the milk after being drawn from the cow. Every consumer should visit the place from whence he gets his milk (no matter if it is surrounded by a high board fence) and see how the cow and the milk are handled before using it as a food for the baby.

### COMMON SENSE

#### HEADQUARTERS AT THE SPINE

In almost every case of disease the original cause is some interference with the nerves. So the Osteopath devotes most of his attention to the spine, where the chances of interference with the nerves are greatest. Slight misplacements of parts of the spine, vertebrae, are very common; much more common than is generally known. Indeed careful examination of a great number of persons will reveal the fact that there are very few perfect spines. If the slip in the spine be at a place where the nerves go to the stomach, the nerves in question are certain to be pinched, irritated or strained. And the stomach, with its blood and nerve supply interfered with, is certain to lag in its work. Just so with any other organ in which like interference may take place. Correcting these slight displacements is what Osteopathy is.

## AMUSEMENTS

### STILL PLEASING

Once more the Fraser Theatre Company played a packed house in presenting "A Southern Rose," at the opera house last night. The company is more evenly balanced than any repertoire company ever seen here and their performances run as smoothly as possible, which gives a pleasing effect. Considering the low prices: 10, 20 and 30 cents, the company is an excellent one.  
Tonight the company presents a new piece entitled "Nature's Nobleman." The story deals with transactions in stock in Wall Street, but has in it several Western characters who intermingle in a way that lends dash and humor to the play.

### DEBATE

Much interest is being manifested in the debate to take place next Wednesday evening at Steward's opera house, between the debaters of the La Grande high school and Prof. Hookenberry's school. The question is: "Resolved, that the amendment granting suffrage to women in Oregon should be adopted." Gold medals are offered to the members of the winning team.

This question is a live one just now, in view of the coming election, and the discussion will give an excellent opportunity to hear the arguments on both sides. The High School has the affirmative. Both teams are working hard and as they are well matched in ability and experience, the contest will be spirited.

### COMING

Next Monday evening in the opera house W. O. Manion, supreme medical director of the order of United Artisans will address a public meeting in the interests of the order. The doctor is a pleasing and fluent speaker and will be able to explain the workings of the order to you from a business point of view and you will understand it better after hearing his talk than you ever understood it before.

### ANOTHER CANDIDATE

John T. Williamson late yesterday evening filed his petition with the county clerk, for nomination of county judge on the Republican ticket.

## MERCURY MAKES WRECKS NOT CURES

Thousands who have had their health ruined by Mercury testify that it makes wrecks instead of cures in the treatment of Contagious Blood Poison. While it may mask the disease in the system for awhile, when the treatment is left off the trouble returns with renewed violence, combined with the disastrous effects of this powerful mineral. Mercury, and Potash, which is also a common treatment for Contagious Blood Poison, eat out the lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and muscles, and leave its victims complete physical wrecks. Another effect of this treatment is mercurial Rheumatism, the worst and most hopeless form of this disease. There is but one certain, reliable antidote for this destructive poison, and that is S. S. S. It is the only medicine that is able to go into the blood and cure the disease permanently. S. S. S. does not hide or cover up anything, but so completely drives out the poison that no signs of it are ever seen again. S. S. S. is made entirely of roots, herbs and barks, and while curing Contagious Blood Poison, will drive out the effects of any mineral treatment. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral of any kind. Book with instructions for self-treatment and any medical advice wished furnished without charge.
