OSTEOPATHY IN PNEUMONIA

Said Dr. Walter Bevins, one of Chicago's most eminent physicians last winter: "Not a medicine is known that will do one particle of good in pneumonia, and the sooner we resume the search for one, the better for ourselves and the people." But he must add: failure must always meet the research for a medicine, for the cause lies beyond the medicine. Medical text-books say the state in pneumonia is a filling of the lung tissue with blood and serum which has exuded from the dilated blood vessels. The osteopath goes further and finds that these blood vessels are weakened by a loss of nerve force which is cut off by pressure on the vaso-motor nerves to the lungs. The cure depends on the removal of this pressure. Thus it is seen why medicine must fail. The osteopath finds this pressure to be from slightly displaced vertebrae and ribs. Correct these and the cure speedily follows.

FIGHTS AT POINT OF DEATH

BUSINESS IS RUSHING

Things are bound to move when Conditions are Right

If everyone in this city who has no piano but who needs one and has the money at our especially low terms, to buy one, could fully realize the true facts in the case, our store would be a perfect "jam" until ten o'clock tonight, with people, fairly crowding each other in their efforts to secure an instrument out of this splendid stock of fine pianos at greatly reduced prices and our sale would no doubt be ended by tomorrow morning. Our reasons for making this sale, and conditions surrounding it, have been fully explained in previous advertisements. It will cost the reader nothing to investigate our honest claims, and if you ever expect to own a piano, now is the time to save from \$50.00 to \$200.00 on your purchase. Remember the place.
