MUCH AURELIA STOCK SOLD AND PRICE RAISES.

The Aurelia Mining Company wishes to inform its patrons, that through the generosity of the people of La Grande, and vicinity, they have sold stock enough to build the 4 1/2 miles of road necessary to reach the mines; and to erect a concentrating plant on its property, which will be a 6 to 10 ton mill; consisting of a stamp, kinkad, or Merrill Muller mill, an ore crusher, amalgamating plates, and concentrating table, which will be run by water power using a Pelton water wheel. This will be put in operation just as soon as possible.

The price of stock is now 12 1/2 cents per share and the company expects to sell only 8000 or 10,000 shares, more of its stock, and the same will be withdrawn from the market on the 15th of April.

We thank you and appreciate your efforts with us in this matter, and will always put our best efforts forward to make the mine a success, and will especially try to act in a manner that the confidence placed in the enterprise by you may not be misplaced. We are sorry to say that a number of persons whom we have heard of, are trying to discredit our enterprise and ourselves. We wish to say to all of those that we have a record that we are not ashamed of and one that cannot be easily challenged; and you may search us back for a number of years, "if you please." A statement is also afloat that we wish those to understand as being untrue. Some unscrupulous person has stated that the president of the company is drawing from the treasury a salary of \$200 per month. As we have said, "this is untrue," and any one of the stockholders can learn the truth of this by looking the matter up, and they must feel a perfect privilege to do so. In fact, he has not drawn a cent. The officers interested in the care of its funds more than anyone else. We suppose there are those who will "kick," no matter what enterprise may be put on foot; but we will always say that, that this way of doing, is very uncharitable, to say the least. The projected work will be pushed as fast as can be. It will be slow at the best, as it is a matter of building up a wilderness. But we have the mines and the energy. This with good judgment should give us success, and we have great faith in the outcome of our property.

In conclusion, we will say on account of the unscrupulous kicking: "If there is any who have purchased stock of the Aurelia Mining Company, who are dissatisfied with their investment, and want their money back, they can have the same by calling at the Eastern Oregon Trust & Savings Bank of La Grande, after the 15th of April and during the remainder of the month." We wish to be fair at all times and you will always find us so.

AURELIA MINING COMPANY.

THE BEST EVER

Do you desire to look upon something that will make your heart rejoice, expand your soul, and every drop of blood in your veins flow with renewed vigor? If you do, just stop on your way as you pass up Adams Avenue, and look into the windows at the Newlin Drug Company, and view the magnificent, grand and beautiful display of flies, rods, lines and other fishing paraphernalia displayed therein. It is one of the most elaborate beautiful, and choicest ever seen in this city, and could Sir Isaac Walton or Christopher North, see them they would dance with joy.

The flies are most exquisite, the rods superb, and the lines of the finest texture and as the fishing season is here and you look at the truly beautiful display you will imagine you are upon the mountain streams where

The soft breeze through the branches swish
Where the poet strings his lyre
And the liar strings his fish.

NOW IS THE TIME

Now is the time to build stone and brick buildings, as the material is now as good as in the summer time and for less money, which is just reversed on material in wooden buildings. But if you do build good wooden buildings I would like to furnish you kiln-dried, straight and clear material for same price or less as you buy so called clear lumber, full of knots, bark and inferior planing, which means short crooks, narrow match and with saw marks remaining and below standard width and thickness. Now it is up to you. The price of the material is just the same or less. Any carpenter knows there is less waste, a labor saving from 10 to 25 per cent, a better job and will last longer.

Building stone and Portland fir lumber a specialty. J. L. MARS.
