It is time Union did something towards
advertiting her resources. At present
there is nothing that can be sent out to
homemesekers desariptive of this cuntry, hormasekerring deacriptive of this cauntry.
Hundreds of inquiries about this country Hundreds of inquiries about this country
go practically unanswered every year simply because there is no literature de script ve in its nature to send out. It is up to our people to look after the dissem-
ination of the information desired by homeseekers.- Republican. However, brother, the proper way
would be for the county to appropriate would be for the county to a
about $\$ 300$ for this purpose.

The edurat come to be important factors in agricultural education all ovar the middle west And chin year New England is also fall-
ing into line. Up to date the carn and
. ing into line. Up to date the corn and
soil specials have predominated; but we have had also dairy, horticultural and good roads specials and all have been very popular. Part of the interest un-
doubtedy comes from the noveity of this plan of doing institute work. But so long as the people are interested and liston, improved farm methods are aure to result. The farmers have not the public but the railroads to thank for these special trains for they are expensive for tne railroads to operate and agricultural college pro-
tessors have to make sacrifices to thus fessors havo to make sacrifices to thus
travel over the country. Indirectly the travel over the country. Indirectly the
colleges are rewarded by increased attendance and the railroads by having larger crops to transport so all-the farmers. the college people and the rail-roads-are happy.
It is only a short time untii th election, and all sorts of people are offored for approval or rejection. The
now law makes it possible for any man to get before the people for a nomination.
but it does not necessarily foliow that the people should endorse every man who
comes up for pubic favor. It is especially important that the very best men be endorsed for the nomination at the primaries if the object of the now law is
to be realized. The poople are here given candidates for publio prices ind fail to avail themselves of the opportunity they bave onily themselves to blame register, and then get out and vote at the primary election, or forever hold his peace as to gang methods and gang rule
It is up to tho voter to remedy the evils so long complained of at election time. Union Ropublican.
It certainly begins to look as though the Contral Paiiroad has begun work in earnent and their original plans are to be crading about comploted and are work ing suite a force of men. The presiden Mr. Cleaver is in Portiand, we understand arranging for the steel. The completion of the belt line means a groat deal for this country, in fact there is only one thing in our opinion that could be of greater importance and that is an extensive irrigation project. This road will holp get that and the two work admirably together. When this county is coverec with water. and electric railroads it will support thousands of people that is not

## FIR STREET SECOND HALD STORE
