

HON. H. M. CAKE.

H. M. Cake, Republican candidate for United States Senator, has announced the platform upon which he will go before the people of Oregon at the primaries. The man and the platform will certainly meet with the approval of the people. Loyalty to Republican principles, devotion to the development of Oregon, improvement of rivers and harbors, a vigorous policy in the reclamation of arid lands, government ownership of the Oregon City locks, tariff for protection and not for monopoly, opposition to trusts, equitable railroad rate legislation, aid to deserving veterans, a fair trial of the primary law, construction of the Panama canal, a strong position on the rights of labor, exclusion of Chinese coolie labor, direct election of United States Senators, and a strong stand with the President for the people, are some of the propositions upon which Mr. Cake faces the people of Oregon.

He holds the enforced principles of the Republican party a condition necessary to the prosperity of the people and the maintenance of our institutions, and points to the progress the nation has made along all lines under Republican administration. He declares for harmony in the party and advocates that consideration be shown those who have assisted in maintaining the stability of the organization, and condemns discord, factions and unsettled allegiance to its principles.

He urges the necessity of strong efforts to develop the resources and industries of Oregon and movements to procure federal appropriations to aid in building up the state. On the subject of improvement of rivers and harbors he pledges himself, in the event of his election, to spare no effort to procure federal appropriations for the completion of jetty construction at the mouth of the Columbia, opening of the Dalles-Celilo canal, the dredging of the Willamette river, and the deepening of the harbors of Tillamook, Coos and Yaquina bays and the Coquille river. He advocates continuing contracts whereby the improvement work will be permanent and effective and not mere contingent appropriations which result in little good.

His platform favors a more vigorous prosecution of the work of reclaiming arid lands in Oregon than has been the case heretofore.

He takes a strong stand for government ownership of the Oregon City locks as a means of affording relief to the people of the Willamette valley from tolls on their traffic.

He declares in favor of a tariff for protection, not for monopoly, and takes the

position that when a particular industry has become able to take care of itself, the tariff should be modified to meet the changed conditions. The tariff laws, he says, should not be manipulated in the interests of a monopoly of any commodity of the people's necessities.

A strong stand is taken in opposition to trusts, which Mr. Cake declares to be a menace to the liberties of the people and contrary to every principle of public policy, and he declares in favor of the prohibition of trust combines from carrying on business, their dissolution, and the punishment of violators of law in this respect; besides such additional legislation as is necessary to correct the evil.

He strongly favors giving the Interstate Commerce Commission power to regulate railroads and other corporations carrying on an interstate business.

He favors national aid for deserving veterans of the Civil War, declaring that those who risked life, limb and property for their country in times of national danger, are entitled to aid from the government. He is in entire accord with the policy of aiding those deserving veterans.

The primary law, says Mr. Cake, has been adopted by an overwhelming vote of the people and he favors giving it a full, fair, and complete trial.

He stands for the completion of the Panama canal with all possible dispatch in the interests of American commerce, and as a means of facilitating the movements of the American navy.

He declares the right of the American workingman to organize for the protection of his rights to be an inherent one and the only means by which he can compete with organized capital. He is in favor of reducing the hours of labor and takes the position that the employment of children in classes of labor that injure them in mind and body, should be prohibited by law.

The platform takes a strong stand in opposition to the modification or repeal of the Chinese exclusion act.

The present system of electing United States Senators is unsatisfactory, says Mr. Cake, and he fully endorses the policy of electing United States Senators by direct vote of the people.

He applauds the stand taken by President Roosevelt in opposition to trusts and combines of capital, and pledges himself that in the event of his election, he will stand with the President on the side of the people in the fight against organized greed.

To Whom it May Concern:  
It has been reported that Frank W. Benson, a candidate for the Republican nomination for secretary of state, is too closely allied with corporations, to be acceptable to the employes of railroad companies or other corporations. We wish to say that we have been well acquainted with Mr. Benson for the past twenty years and can say positively that such is not the fact. That he has no interest whatsoever in the Booth-Kelley Lumber Company, and never at any time acted as its attorney. That he has always been a good and valuable friend of the railroad boys and their interests and in Western Oregon will receive their undivided support and we sincerely trust that you will use your best endeavors to see that he receives the support of you east of the mountains.

Yours very truly,

FOR STATE TREASURER  
Vote No. 35. (X) Thomas F. Ryan, of Clackamas County.

ANAEMIA

GIRLHOOD'S SICKNESS

It is easily verifiable in chlorosis, anaemia, (green sickness, as mothers call it), that the patient suffers from greater or less difficulty along the spine, to which all this needless suffering in girlhood is due. It is equally well demonstrated that no system of treatment save Osteopathy pays any attention to these conditions. Osteopaths hunt out these spinal and other deviations from normal healthful anatomy, and remove them by plain common sense, mechanical means, just as you would straighten or replace the wheels of a watch. The blood-making organs are thus let free to resume their work of making blood.

There is no attempt to supply by internal drugs the lacking qualities of the blood, for if once supplied they are soon used up and the patient is where she was before taking. How much better is the Osteopath's way of setting the natural organs of supply into action that the proper quantity and quality of the blood may be maintained in the way Nature designed?

STATE TREASURER

If any one of the aspirants for nomination to office on the Republican ticket is peculiarly fitted for the office and deserving of the nomination, that candidate is Judge Thos. F. Ryan of Clackamas county, who seeks the Republican nomination as state treasurer.

Judge Ryan in this contest, is peculiarly the people's candidate.

He is not a banker, bank clerk or stockholder in a banking institution—connections that nearly all the opposing candidates have. In nominating and electing Judge Ryan to this important office, the people of the entire state may be assured that their every interest will be zealously guarded and a faithful and efficient administration rendered of the office.—Salem Statesman.

Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition, chemically pure, triple-refined glycerine, being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a distasteful agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. It is one of the best manufactured products of the present time in action upon feeble, disordered stomachs; especially if there is ulceration of catarrhal gastritis or intestinal inflammation of stomach. It is a most efficient purgative. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherry bark, Queen's root, Blood-root and Mandragora root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Chicago; Prof. Hobart A. Hare, M. D., of Medical Department, University of Pa.; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D., and Prof. John King, M. D., Authors of the American Dispensatory, and scores of others among the leading medical men of our land.

Who can doubt the curative virtues of a medicine the ingredients of which have such a professional endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.
