THE BIG PIANO HOUSE

WHAT ITS COMING MEANS

With a chain of fifteen retail establishments in every important Western trade center, the Eilers Piano business, in comparatively few years has grown to be the wonder of the trade world. Its methods and the conduct of the establishment have won the admiration of artists, music lovers, and the general public.

This success is due:

First—To upholding at all times the artistic element in pianos.

Second—By placing piano selling on a rational business basis.

Third—By making the buying of thoroughly high-class instruments possible to all.

Tersely stated, the Eilers plan saves to the piano buyer everything that systematic, economical, careful and up-to-date business methods can effect. Thus the Eilers plan enables you to secure the highest grade piano for the money that has heretofore been paid for a medium grade piano, or to secure a piano of medium grade for the former price of a poor one. More about our methods of business will be given tomorrow. Watch for it. Just as we anticipated, Saturday was a big day and we opened up business this morning with one Piano in the store. Several new ones arrived early during the day and as a result we have a fine lot on display. Nearly every train this week will bring new goods but they will not last long at the present rate of doing business. Come early and get first choice.
