Grandy & Russell

LA GRANDE SCHOOL OF MUSIC

PROF. DAY, PRINCIPAL.
MRS. DAY, ASSISTANT.

This is one of the best musical institutions in the state, and that people in this city and valley are beginning to discover the advantage of this school. The system is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments; No. 1 is for beginners from 5 years or more and are taught the first three grades. Pupils come one hour each day. This is no kindergarten system but far superior. In No. 2 the grades are from 2 to 5. Here they graduate. Pupils take one or two lessons a week as they desire. No scholars will be permitted to remain in this school who do not study.

LOSSES IN NEW YORK

New York May 2—The annual report for 1905, issued by Fire Marshall Peter Seery, shows that there were during the year 1905 in Manhattan, the Bronx and Richmond 7,750 fires, an increase of 201 fires from 1904. The total loss by fire during the year is estimated at \$5,271,955, an increase of \$741,012 over 1904. The average loss per fire was \$680.25, an increase of \$90.05. Of the total number of fires there were 333.7 in which the losses were \$10 or less. In regard to the causes of the fires the report makes the following interesting statement. The principal causes were: Carelessness with matches, 757; children playing with matches, 244; carelessness in the use of lighted cigars, 404; overheated stoves and stovepipes, 444; chimney fires and defective flues, 459; bonfires and brush fires, 476; carelessness in use of candles, 256; gaslights in contact with curtains, 17; kerosene lamps exploding, 165.

The report says, that not a few fires are caused through apparent carelessness in the use of candles in religious services in homes, draughts from open windows blowing curtains against the lighted candles, Marshal Seery also says: "I was also surprised to find many cases among the poorer classes where three or more persons in the same suite of rooms had each a fire insurance policy. It appears that if insurance companies were not so lax in respect to "risks issued" there would be a material decrease in the number of fires.
