

NEW CURE DISCOVERED FOR Republican TUBERCULOSIS Speaking

(Scripps News Association)

Paris, May 12.—It has just been announced that Dr. Pioyey, of this city and Don Linc Valasquez, a Spanish scientist have discovered a new tuberculosis an antitoxin, the completion and mode of preparation of which they have decided to keep secret until all doubts as to its efficacy have been removed. The discoverers declare that the antitoxin is harmless to human beings and animals, but prevents

the development of the Koch bacilli.

After experimenting on themselves and finding that the inoculation did not produce pain, local inflammation or febrile reaction they inoculated thirty patients, suffering from tuberculosis, and an improvement was always noticed, particularly in the cases of osteo-parietitis and lupus. Dr. Pioyey and his colleague who have hopes of effecting complete cures, will communicate the results of their experiments and observations to the scientific world.

HOUSE

UNION COUNTY

Union County presents to the home seeker a greater number of diversified industries than any county in the state, outside of Multnomah county which is practically Portland.

We do not believe that there is another county in the Inland Empire that can show fourteen different industries whose total annual revenue produces an average of \$193,000.00 cash.

The annual report of the State labor Commissioner, places Union County third in the state, in the employment of labor.

It requires 194 solid trains of fourty cars each to carry the produce of our county to the market, more than a train every other day throughout the year.

"An admirable climate." The past winter only for a few hours did the mercury reach zero. No excessive heat in the summer and our cool refreshing nights cannot be appreciated by the residents of the east until they are permitted to enjoy them.

Our soil is rich and productive. Were we to mention fields they would not be believed. The only way to become acquainted with this "Garden of Eden" is to personally visit this land of diversity, as when you see the crops growing and harvested they speak for themselves.

Our forests will require many decades of the present activity before they begin to yield and we now have thirty or more saw mills which give employment the year round in the mills and logging camps.

The only sugar beet factory in the state is located at La Grande, the County Seat of Union County with a population of 5,000, progressive wide awake people who extend the glad hand to all. This is the commercial, educational and social center of the county.

La Grande is known as the railroad town of the O. R. & N. Co. whose annual payroll at this place exceeds \$500,000.00. From here the branch road is now pushing through the northern part of this county, on into the Walla Walla County, starts a freight division, machine shops, round houses, and one of the largest railroad yards on the system, and train dispatchers office. The public schools of La Grande are second to none in cities of this size in this state. We now have three buildings and a fourth, an eight room brick building in course of construction, giving employment to twenty-two teachers. The principal office of the Grande Ronde Electric Co. is located in this city. This Company furnishes power and light for the city of La Grande, Island City, Cove, Union, and the Hot Lake Sanatorium.

VALUE OF PRODUCTS
