PROF. DAY, PRINCIPAL.
MRS. DAY, ASSISTANT.

This is one of the best musical institutions in the state, and that people in this city and valley are beginning to discover the advantage of this school. The system is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments; No. 1 is for beginners from 5 years or more and are taught the first three grades. Pupils come one hour each day. This is no kindergarten system but far superior. In No. 2 the grades are from 5 to 15. Here they graduate. Pupils take one or two lessons a week as they desire. No scholars will be permitted to remain in this school who do not study. Opposite the Foley House over the candy store. Phone. 473.

ANAEMIA

GIRLHOOD'S SICKNESS

It is easily verifiable in chlorosis, anaemia, (green sickness, as mothers call it), that the patient suffers from greater or less difficulty along the spine, to which all this needless suffering in girlhood is due. It is equally well demonstrated that no system of treatment save Osteopathy pays any attention to these conditions. Osteopaths hunt out these spinal and other deviations from normal healthful anatomy, and remove them by plain common sense, mechanical means, just as you would straighten or replace the wheels of a watch. The blood-making organs are thus let free to resume their work of making blood.

There is no attempt to supply by internal drugs the lacking qualities of the blood, for if once supplied they are soon used up and the patient is where she was before taking. How much better is the Osteopath's way of setting the natural organs of supply into action that the proper quantity and quality of the blood may be maintained in the way Nature designed?
