#### CONSTIPATION-CAUSES-CURES

The causes of constipation are: improper diet. lack of exercise, peroid drugs and pressure of bones, muscles and ligaments on the nerves to the digestive tract.

The treatment in the first three instances is evident: correct the habits. Just as evident is it in the last-remove the pressure from the nerves. This is accomplished by the Osteopath, through the correction of slightly displaced vertebrae, ribs or palvic bones, by relaxing contracted muscles and ligaments. The nerves are then free to carry the normal nerve force to the intestines. The glands then resume their secretion of fluids, the intestinal motion is regained, propeling the contents onward. This is a natural state and consequently a permanent state. 4 10 If your body was once capable of digest-ion, it should now be so again. Nature's 24 00 way is the only way. Osteopathy's success in curing this very common trouble certainly makes modest any claims it 41 25 may advance.
