

**NOTICE OF SIDEWALK IMPROVEMENT**

To the abutting property owners on the East side of Seventh street, between its intersection with M and P streets. You and each of you, are hereby required to build a sidewalk in front and abutting your premises on the east side of 7th street, between its intersection with M and P streets, as provided by the ordinances of the city of La Grande, and under the supervision of the Superintendent of streets for said city. And if you fail, neglect, or refuse to do so within twenty days after the seventeenth day of May 1906, said sidewalk will be constructed by the city of La Grande, and the expense thereof assessed and made alien against the abutting property. Dated at La Grande, Oregon, this 21 day of May, 1906.

I. R. SNOOK,  
Recorder of the city of La Grande.

**ATHLETIC  
EVENTS OF  
INTEREST**

The bear stories that have been making the rounds of late in regard to dissatisfaction among the members of the baseball team, are all a mistake. Betzel jumped to Nampa because he was offered a proposition that would net him more cash than he could possibly earn here. Manager Heisner has his eye on another promising man and will fill the position with a good one. Manager Heisner tells us that if at any time any one of the players comes to the conclusion that they can do better elsewhere, he will have no trouble in securing competent men to fill their places. The team will be as strong next Sunday as it ever was, and the noise from the hammer and anvil will not effect the line-up in any way. The line-up will be announced Saturday.

Gregory is ill at the present time, but if he fails to get into shape by Sunday, Heisner will have a man from some outside aggregation to fill the box, and the prospects for a good game will not be lessened.

**ELGIN SUNDAY.**

The ball team is to play in Elgin next Sunday, and the many fans of this city will have an opportunity to see the game on account of the excursion which is planned.

**PREPARING FOR BIG MEET.**

The high school track team is fast rounding into good form for the big meet at Pendleton next Wednesday. On Saturday Captain Bay will pick the team that will represent La Grande on his dirt path and he is confident that there are point winners in the aggregation.

**PIONEERS  
TO MEET  
AT ELGIN**

At a committee meeting of the Union County Pioneer Association held in this city, Elgin was designated as the place of holding the next Pioneers' Reunion, and Thursday, July 5, was the time fixed upon by the committee. Mr. T. A. Rinehart was invited to deliver the address. A special program will be prepared and announced later.

President La Grande Republican Club.

**TRYING THINGS**

A considerable number of persons acquire the habit of "trying" things. The habit becomes so firmly fixed that all their time is spent in changing from one craft to another; they never pass the surf line at the harbor bar, nor arrive at the seaport of their ambitions. Some of these persons board the Osteopathic craft; they interview the captain, who tells them in a general way the story of his craft, and explains how it may be expected to transport the interviewer to the land of health. The captain may not show the engine, or each bolt or rivet in his ship; it is not necessary to do so; his interviewer would not appreciate it if he did. Whether the exposition is long or short, almost the invariable reply of the interviewer is: "Well, I'll try it."

The person who "tries" Osteopathy by taking one or two treatments, "just to see how they feel," does not try Osteopathy at all; he simply tries the two treatments. The way to try Osteopathy is to place your case in the hands of the Osteopath, allowing him to do the trying. You may have heard of the old axiom of the lawyers to the effect that the man who tries his own case has a foolish man for a client. Does this not apply pertinently to prescribing as one's own doctor? The time to take one or two treatments is when the Osteopath tells you that you need only one or two treatments. He will do this in a number of cases, but not in all cases. He does not want to give a single treatment more than is necessary to get results. Suppose that he removes a long standing trouble by—say three treatments, which is done not infrequently. Which would be the better for him as a business proposition—to keep on treating that case as long as he could possibly hold it, or to send out the patient to do some advertising for him, in the way that all cured patients become advertisements for their doctors? Do you not see that it is a case of "results tell?"

Every time the Osteopath gets a "result" he is just as much pleased as the patient. The reason for this is obvious: He is the exponent of a comparatively new science of health; every result obtained by him proves to be just what he claims it is—a reasonable, common-sense, scientific adjustment of the mechanics and functions of the human machine.—Osteopathic Health.
