La Grande has vital interests at stake in this election and every tax payer and resident should look the issues squarely in the face. An ounce of prevention is worth a pound of cure.

In this election it is up to La Grande to vote for La Grande's interest. Look over your ticket carefully there are several places where your vote may prevent future troubles.

One proposed amendment confers upon the legislature power to propose a constitutional convention at a single session. So long as the people determine the matter the legislature may safely be permitted to submit a proposal to vote at one session as well as at a dozen.

Before another issue, the voters of Union county will have expressed their desires through the ballot, not only as to who shall be their public servants, but upon several important constitutional amendments and laws. It is to be hoped that each voter will pass due judgment upon each candidate and upon each amendment and law as he marks his ballot. If so the results cannot be otherwise but beneficial. The thinking majority of any state or municipality can always be depended upon to do what they think is for the best interests of all.

WELL STATED

Unless W. W. Randall falls short in La Grande, he will be the next Sheriff of Union county. There is no reason why he should be knifed in La Grande, and it is up to the county seat to say whether Mr. Randall shall come out of that place with his party vote or to be turned down for the sake of keeping all the offices in La Grande. It is up to the county seat to make good in this matter.—Union Republican.

The proposed state purchase of the Barlow toll road is said to be graft, pure and simple. Those back of the measure are said to hold an option on the really worthless property for $8000. They could then turn it over to the state and pocket about $16,000. And we have the portage road, with a monthly deficit that does not need duplication.

The men of Oregon must say whether the women of Oregon can vote at elections hereafter. A vote for the constitutiona' amendment which gives women the right of suffrage is a vote in favor of a more intelligent ballot. Girls in school prove themselves more apt in good citizenship studies than boys of the same grades, and women in life are more thorough students of social movements. There is nothing in either sex or color by which the quality of the voters and the vote may be determined, but there is much in the intelligence and morality. A good many women do not want to vote, and many more do. This is even so with men. If women are handicapped in the industrial world, the fact does not prevent them from being more independent of state aid than the men. Charitable and penal institutions are maintained almost solely for men who receive higher wages. Women are taxed for their support in like manner as men. In many places in the state women contribute as much as the husband for the maintenance of the family. It will be a pretty tribute to their sterling worth to accord them a privilege which men assumed for themselves as a right.

accurately fitted will correct this and benefit the eyes in other ways. Don't neglect the eyes. It is not good sense or good economy to refrain from buying a $1.50 pair of glasses now and later when the eyes are worse have to pay $5.00 for more powerful lenses.
