There are many places where a saw mill could be built, and La Grande is one of them. Let every body help and a mill will be erected here which will be a credit to the town, and a money maker for us all.

The election is over. Let us all settle down and work for the up building of La Grande. We have the foundation for a good town, and all we need do is to look after the superstructure.

Clean up your part of the alley. It might have the effect of causing your neighbor to gather up his rake and clean up his section. Try it once and see what effect you have. The alley needs a little attention.

At the present rate of consumption, it is definitely stated by competent authority "every stick of saw timber in this country will be used up within 30 years." The news is startling, in view of the fact that no adequate remedy is in sight. Every timbered section seems anxious to get in saw mills and get the timber to market with all possible speed. There should be more thought for the future.

**INCREASE OF COTTON AREA**

It appears from the bulletin of the Southern Cotton Association, just issued, that the acreage planted in cotton this season is 27,635,718, against 26,989,491 at the corresponding time last year, an increase of 635,227, acres, or 2.29 per cent. The estimated acreage by states includes: Georgia, 5,826,618, about the same as last year; crops two weeks late, labor scarce and in some sections labor situation acute. North Carolina, 1,638,661 acres, decrease of 7 per cent; crops are late and labor scarce. South Carolina, 2,212,807, about the same as last year; labor scarce. Texas, 7,888,645 acres, an increase of 7.90 per cent over last year; fair labor conditions. Florida, Missouri and Virginia, about 375,300 acres, an increase of 1 1/2 per cent.

**IN THE LAMP LIGHT**

Pendleton is learning again how to trim lamps and it is remarkable how quickly we have adapted our habits to the lamp wick age again. We stay at home, more, we retire earlier, we do not turn night into-day and day into night.

**THE LA GRANDE NURSERY**

**SHADE TREES**

is one of my specialties. Delivery to be made on or after March 15.

Special bargains on Roses

I also have a fine lot of Apple, pear, prune, plum, cherry, apricot, peach, mulberry, shade trees and ornamental trees, grapes, currants, gooseberry, blackberry, dewberry, raspberry, vines, creepers, and hedge plants.

**GEO. W. POWELL,**

We even forget to turn the lights on when we enter an unlighted room or house, but begin to fumble for matches. If the Light company doesn't repair the plant at once we may even grow fond of the 'good old-fashioned way' again and turn off the juice until a lamp explodes or a candle flame ignites the lace curtains.

Just the same we miss the convenient juice. Its absence for a week or two can be endured but if Pendleton should by some freak of events be permanently deprived of electricity, scores of its citizens would seek better lighted places.

The ability of the American to adapt himself to new and changing conditions is wonderful but he is too progressive to overlook anything good that he is able to secure. He can endure much and do so pleasantly, if necessary, but his energy and capacity to enjoy took him out of the lamp light age to which he will not return though he could if necessary.—Tribun.

Good looks bring happiness. Friends care more for us when we meet them with a clean, smiling face, bright eyes, sparkling with health, which comes by taking Hollister's Rocky Mountain Tea, 35 cts. Tea or Tablets.

**Is Disease a Crime?**

Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all disease should be regarded as criminal. Certain it is, that much of the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yes, criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of household cares and burdens, and suffers from weaknesses, various displacements of pelvic organs and other derangements peculiar to her sex. Frequent bearing of children, with its exacting demands upon the system, crowded with the care, worry and labor of rearing a large family, is often the cause of weaknesses, derangements and debility which are aggravated by the many household cares, and the hard, and never-ending work which the mother is called upon to perform. Dr. Pierce, the maker of that world-famous remedy for women's peculiar weaknesses and ills—Dr. Pierce's Favorite Prescription—says that one of the greatest obstacles to the cure of this class of maladies is the fact that the poor, over-worked housewife can not get the needed rest from her many household cares and labor to enable her to secure from the use of his "Prescription" its full benefits. It is a matter of frequent experience, he says, in his extensive practice in these cases, to meet with those in which his treatment fails by reason of the patient's inability to abstain from hard work long enough to be cured. With those suffering from prolapsus, anteversion and retroversion of the uterus, or other displacements of the woman's organs, it is very necessary that, in addition to taking his "Favorite Prescription" they abstain their feet. All work lifting or straining of any kind should also be avoided. As much out-door air as possible, with moderate, light exercise is also very important. Let the patient observe these rules and the "Favorite Prescription" will do the rest.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential. Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.
