POTATOES & HAY

We have a large supply of strictly choice large potatoes in stock, which we offer at very low price.

We still have a large amount of hay - all grades - in our house which we offer at \$12.00 per ton. The hay market is very dull at the present time and we want to unload same.

We have to arrive a car load of Straw berry boxes, in about a week. Our price on them will be very low.

We are in the market for all the eggs that are offered and we pay highest market price, spot cash, for them.

CREAM SEPARATORS

"STOP!" and think before you buy a separator. There are many things to be considered in the purchase of a cream separator. You want the lightest running machine on the market. You want the machine that is the easiest to wash and keep clean, you also want the machine that will produce all the butter fat. And above all you want a durable machine so that you won't be continually paying for repairs.

Now the famous Empire Separator is the machine you want as it has all these advantages over every other machine on the market.

Any company can make claims but let us show you the Separator that makes good

This daily hanging, shooting and stabbing of Father Gapon by his old confederates must be somewhat painful. He should come out of his retirement and protest against it.

The Lord Almighty thinks more of the country editor than of the daily newspaper for he has made more of them. Extract from a speech before the National Editorial association at Indianapolis last week.

Kansas has come to the front with another freak. This time it is a man who refuses an appointment as United States Senator from that state. He assigns his principal reason that the office is "hoodooed"

One of the very sensible things done at the recent election was the adoption of an amendment to the State Constitution giving to cities and towns the privilege of amending their charters by a vote of the people at any time.

Absorbed in business, pleasure and the petty affairs of everyday life, the people of Havana completely overlooked the fact that the third Tuesday in May was the day set apart by the astrologers for the destruction of their city.

The city means business about the house numbering ordinance, and property owners will save themselves expense by numbering at once. If you do not know your number call at the Observer office with your lot and block number and the name of your street and we will find your number for you.

With the county gradually working out of debt and the school district only about three months behind in the payment of its warrants, the tax-payer begins to see some day-light in public affairs. It is to be hoped that these branches of the public machinery may continue to improve in condition until the last vestige of indebtedness is wiped out. The time when the people will be satisfied to have towns counties and school districts dragging along under a ruinous load of indebtedness, has passed, and they now demand that public officials shall make a showing each year along this line "to the good". The county and school district seem to be headed the right way.—Union Republic.

GEO. W. POWELL,

It will be something new in Oregon to see the legislature settle the Senatorial question on the first ballot. We have become so accustomed to 40 day contests that anything short of that will be an agreeable surprise. The wishes of the people have been so clearly expressed that we do not believe the Legislature will dare to juggle with the election in the interests of any candidate. The ratification of the people's choice should be prompt and unanimous.—Ledger Democrat.

Five of the nine superintendents of the public schools in New York are reported to be using simplified spelling, and some of the school principals have informed their pupils that the right way to spell certain words can be left to common sense rather than to the spelling books. This ought to give the delinquents in orthography a chance to differ with the schoolmaster occasionally.

The stove foundry at the Oregon penitentiary could be profitably supplanted by the substitution of a jute mill, such as operated in Washington state penitentiary at Walla. Grain sacks made by convict labor in this state would greatly lessen the cost of sacks to the farmer. Besides the manufacture of the product would not come in competition with the private enterprise to the extent that the manufacture of stoves does.—Athena Press.

**A LITTLE TALK ON
ICE CREAM SODA**

**NOT BETTER THAN THE BEST
BUT BETTER THAN THE REST**

To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want, now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious **ICE CREAM SODAS** we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you, We are respectfully,
