**MAYOR GIVES
 HIS REASONS
 FOR VETO**

To the Council of the City of La Grande: I herewith return Ordinance No. 527-series 1906 with my disapproval.

An ordinance to amend the existing laws licensing and regulating the sale of liquor should produce at least two desirable results; it should be a means of increasing the revenue and of making an improvement in the morals of the community.

The conditions imposed should be reasonable and legal according to the laws and Constitution of the State of Oregon. The "square deal for every man" that we have heard so much about, should guide your actions in shaping and enacting laws on any subject that may affect any class of people. Ulterior motives in voting for a measure should never be the basis for your decision. Measures should be enacted on their merits, according to honest conviction, sound judgment and for the best welfare of the whole people, and not in the interest of any particular class or faction.

My main objections to this ordinance are about as follows:—I do not believe that, in its present shape, it will increase the revenue, improve the morals or reduce any evils that present laws cannot reach; that it will create a monopoly; that it will discriminate in favor of the man with the most money regardless of the character of the man; that it will decrease population and cause many houses to become vacant; that it is in violation of at least two sections of the Constitution of the State of Oregon; that it imposes penalties that are unreasonable; that it will not effect the reforms its promoters anticipate; that it imposes duties upon the saloon-keeper that he is not capable of performing, in that it makes him a court to decide all cases in advance; makes him in fact the custodian of the community's morals; that the passage of this ordinance was not done in entire good faith; and that if I should approve such drastic legislation, I would be violating my solemn pledge that I made to the people of the City of La Grande prior and subsequent to my election.

I said before election: "If elected, I will diligently fulfill the duties of the office to the best of my ability" and after election I stated: "I now feel justified in making you a pledge that I will not betray that sacred trust."

As stated in my message to the Council, I am not opposed to increase of license but I am opposed to creating a monopoly. I stated I would favor increase of license if it would increase the revenue, improve conditions and not discriminate in favor of one class as against another.

In the first section of this ordinance the license fee is One Thousand Dollars (1000) for one year and Six Hundred Dollars (\$600) for six months. The interest on the Four Hundred Dollars paid for the second six months by the man who pays the one thousand dollars in advance, will amount to Sixteen dollars, giving the man who has the most ready money the advantage of the man with small means in the sum of One Hundred Eighty-four dollars for a yearly license. "A square deal" is a good thing, in my opinion, even in dealing with saloon-keepers.

Instead of this measure increasing the revenue for the City it will have a tendency to increase it for the reason that the fees being so high and the strictures pains and penalties being so severe, possibly not over three or four saloon men could continue in business.

As far as improving the morals is concerned anybody should know that the gilded palace conduces more to the undoing of our best men and boys than the low, cheap groggery.

The laws we have now cover all the ground necessary for the suppression of lawlessness and crime. There is no question about this proposed legislation creating a monopoly, even its most ardent supporters admit that and if for no other reason than this, I would exercise the power vested in me to veto it.

Should this bill pass, it will not only make vacant many business buildings, but the residence section will become slightly depopulated by the people moving away for want of employment. Then the contractors and house builders will be out of a job because people do not want to build houses where tenants are scarce. The thing grows on itself as the house-builders will be out of work, which will mean more vacant houses. Many towns have been killed before and like causes will produce like results.

Everything in Nature tends to equalize, itself and things will adjust themselves to new conditions, but it does not appear wise to me at this time to engage in any experiments.

The Constitution of Oregon imposes
